NINETEENTH ANNUAL REPORT

OF THE

BUREAU OF STATISTICS AND INFORMATION OF MARYLAND

1910

CHARLES J. FOX, Chief

FRANK ARMIGER, Assistant

Rooms 100, 101, 102 Equitable Building
BALTIMORE, MD.

COMPLIMENTS OF

CHARLES J. FOX, CHIEF.

LETTER OF TRANSMITTAL

BALTIMORE, MD., February 28, 1911.

To His Excellency

Austin L. Crothers,

Governor of Maryland.

SIR: Pursuant to the requirements of the statutes creating this Bureau, I have the honor to herewith submit the Nineteenth Annual Report of the Bureau of Statistics and Information for the year 1910.

Most respectfully,

CHARLES J. FOX,
Chief.

Report of the Maryland Bureau of Statistics and Information for the Year Ending December 31, 1910

*To the Hon. Austin L. Crothers,
Governor of Maryland.*

SIR: In presenting to Your Excellency this, the Nineteenth Annual Report of the Bureau of Statistics and Information, the seventh during my term of office, I feel justified in claiming that it is a report of unusual interest and importance, and that it contains a large volume of timely and valuable statistical information.

The chapter devoted to child-labor is of particular interest, as it gives the number of children who applied for permits by counties, the number issued by age, sex, color and months, and the number of refusals, the reasons and the number that were forced to return to school, and comparisons with previous years.

There were 22,950 different places inspected throughout the State during the year 1910, and an effort was made to inspect every place in which children were employed.

There were only 2 arrests made during the year for violations of the Child-Labor Law, as compared with 4 in 1909, 9 in 1908 and 42 in 1907.

The law prohibiting the employment of children under 16 years of age for more than 10 hours in any one day (Chapter 443, Acts of 1892) was amended at the last session of the General Assembly by imposing a fine for its violation, and investing the power of enforcing the law in this Bureau. I am pleased to report that the law is being well received, and is generally complied with.

Article 27, Code of Public General Laws, Section 423, prohibiting the employment of children under 16 years

of age for the purpose of singing, playing on musical instruments, rope walking, etc., is also being enforced by this Bureau, and three arrests were made during the year for its violation. In one case the party pleaded guilty, and was fined \$50, one-half of which was paid to the Maryland Bureau of Statistics; another case was sent to the Grand Jury, where it was dismissed, and the third case was dismissed by the magistrate.

A law prohibiting the employment of children under 14 years of age by telegraph, telephone or messenger companies was also passed at the last session of the Legislature (Chapter 587), and is being complied with as far as not employing children under 14 years of age.

This Bureau had a synopsis of the labor laws printed on cardboard, and distributed among the manufacturing establishments and department stores throughout the city for their convenience.

The Factory Inspection Law, requiring that workrooms in which clothing, etc., are made shall be kept clean, with ample light and ventilation, is being rigidly enforced.

It has been the aim of this Bureau to lessen the number of workrooms in tenements and dwellings and increase the number of factories, where the sanitary conditions are much better.

The result has been that only 5 per cent. of the 65,031 men, women and children engaged in the manufacturing of clothing, etc., are employed at their homes, while 95 per cent. are employed in factories. There were 9 arrests made during the year for violations of this law. In 6 cases the accused were convicted and fined, 2 cases were dismissed and 1 case is still pending in court.

The sanitary conditions of the workrooms have greatly improved from year to year, there being only 2 rooms reported dirty in 1910, as compared with 8 in 1909 and 15 in 1908, and of the premises inspected 3 were reported dirty in 1910, as compared with 5 in 1909 and 12 in 1908.

The Free Employment Bureau was not needed in 1910 as much as in previous years in bringing the unemployed and those needing their services together, because of the demand for labor, both skilled and unskilled. These conditions were brought about by the large expenditure of money in the city of Baltimore for new docks, sewerage system, park extension, annex improvements, conduits, etc.

During the year there were 151 applications filed for positions, as compared with 255 in 1909, and the number of positions secured was 32 in each year.

The number applying for help in 1910 was 70, as compared with 50 in 1909.

This Bureau was not called upon during the year to act as mediator or arbitrator between employer and employe, as there were no strikes or lockouts of sufficient importance to require our services. Capital and labor are beginning to understand their natural dependence upon each other, and that the mistake of contentions which are caused almost entirely by the question of wages does not result in permanent benefit. Reasonable concessions, on the one hand, and the avoidance of unjust demands, on the other, before the strike or lockout actually occurs will prevent financial loss to the parties concerned and a sacrifice of public interests.

Prices and the cost of living have always been a subject of great controversy, and will always be an interesting field for investigation. Under this head the average prices of the principal articles of food that go to supply the table of the family of modest income are given by months, taken during the year in the Lexington Market, and also from 277 grocery stores in all sections of the city of Baltimore. The yearly earnings of 1,381 persons, employed in 32 different industries, are also given, and comparisons made with earnings in previous years.

The chapter devoted to "Acreage production and value of farm animals" furnishes interesting statistics,

taken from the latest and most reliable sources, and should be of great interest to the farmer.

The Thirteenth Decennial Census, taken by the Federal Government, and furnished to this Bureau, gives the population of the State by cities and counties, with their percentage of increase, also in tabular form the principal manufactures of Baltimore City, with capital invested; salaried officials, clerks, etc.; average number of wage-earners, miscellaneous expenses, cost of materials and value of products, also the number of manufactures in the State by counties, and principal cities with their names, location or post-office, average number of wage-earners and value of products.

The census of buildings for Baltimore City, as taken by the Police Department during the month of June, is given, and comparisons made with the two previous enumerations.

These are followed by the current prices of grain furnished by the Chamber of Commerce, the receipts and exports of live stock at the Union Stock Yards, extracts from our State Mine Inspector's report, mineral products, report of the National Cannery Association of the pack for the State of Maryland, State finances, exports and imports at the Port of Baltimore, immigration, Twenty-sixth Annual Convention of the International Association of Labor Bureaus, new incorporations and financial statement complete the work.

In conclusion, I beg leave to acknowledge, with thanks, the valuable assistance rendered by the entire office force, especially my assistant, Mr. Frank Armiger, who is entitled to a share of the credit that may be due this publication.

CHILD-LABOR LAW

The Child-Labor Law which prohibits the employment of children under 12 years of age (except in the counties from June 1 to October 15) and requires that all children between 12 and 16 years of age shall secure a permit from this Bureau, or the health officer of the county in which the employment is sought, certifying that they can read and write legibly simple sentences in the English language, have reached normal development, are in sound health and physically able to perform the work he or she intends to do.

This law became operative September 1, 1906, and from that time until December 31, 1910, permits have been issued to 41,369 children, of whom 24,461 were males and 16,908 were females, and 4,597 children, or 10 per cent., were refused permits for one or more of the reasons set forth, making the total number who applied for permits during the four years and four months 45,966.

Included in the above figures are the 9,841 children who applied for permits during the year 1910, of whom 8,370 were issued and 1,111, or over 11 per cent., were refused. Of the 8,370 permits issued 297 were duplicates, as compared with 270 duplicates in 1909 out of 6,803 permits issued. Of the permits issued 6,457 were in Baltimore City and 2,273 in the counties.

The 8,730 permits issued in 1910 were divided into 5,292 males and 3,438 females, as compared with 3,894 males and 2,909 females in 1909, out of 6,803 permits issued. Of the permits issued in 1910 we find 4,732 were issued to children between the ages of 12 and 14 years,

of whom 107 were colored and 3,998 were issued to children between the ages of 14 and 16 years, of whom 178 were colored.

The number of places inspected throughout the State during the year was 22,950, in addition to 2,917 second inspections, making the total number of inspections 25,867. Besides the issuing of permits and the enforcement of the Child-Labor Law, we required fire escapes to be placed where needed, sufficient light, air space, proper ventilation and good sanitary conditions. We are glad to report that one of the largest manufacturers in the city has established a "Social Service Department," with an experienced lady in charge, whose duty it is to look after the welfare and comforts of those employed.

In this factory there are 65 children employed between the ages of 14 and 16 years, and these proprietors have entered into an agreement with two other large firms not to employ any child under 14 years of age, thus raising the age limit at which children can be employed to 14 years, while the law permits their employment as young as 12 years in Maryland, which is the case in only 12 States in the Union.

There are a number of large establishments in the city of Baltimore that supply hot lunches at cost price to their employes, besides providing comfortable quarters for any who may become sick, with a doctor in attendance free of cost.

These results are most gratifying, and we hope that others will soon follow, not only because employers feel that it pays to look after the health and comfort of their employes, but it is the right of a child to attend school until it reaches the age of 14 years in order to become better fitted to earn a living, and that it becomes better qualified, and that children over 14 years of age give better return for the money they receive.

Of the 46 States in the Union Nevada and Utah are the only two States without a Child-Labor Law. The laws in 32 States require children to reach the

age of 14 years before they are permitted to work. The 12 States in which they are permitted to work at 12 years of age are: Alabama, Florida, Georgia, Idaho, Maryland, Mississippi, New Hampshire, North Carolina, South Carolina, Texas, Vermont and West Virginia.

In 41 States the hours of labor for children are restricted. In 34 States night work is prohibited between certain hours. In 4 States, viz., Indiana, Maine, New Jersey and Pennsylvania, the hours of labor are restricted to males under 16 years of age, and applies to females until they reach the age of 18 years.

There were two arrests made under the Child-Labor Law in 1910, as compared with 4 in 1909; 9 in 1908, and 42 in 1907. One of these cases was dismissed upon the payment of costs, and the other was dismissed.

There were three arrests made for swearing falsely in obtaining permits. In two cases the parties were convicted and let off without a fine because of their poor circumstances, and the other case was dismissed.

Of the 6,457 permits that were issued in Baltimore City 1,258 were issued during the month of June, 866 in July, 645 in May, 644 in September, 550 in April, 486 in August, with March, October, November, February and December following next in the order named.

Of the counties in which 2,273 permits were issued Baltimore County leads in point of number, having 722 permits to its credit; Allegany comes next, with 446, Washington 249, Wicomico 142, Dorchester 129, Worcester 104, and Frederick, Anne Arundel, Prince George's, Caroline, Howard, Cecil, Talbot and Carroll next in the order named.

Of the 1,111 children who were refused permits 245 were under 12 years of age, 144 had not reached the normal development, or were not physically able to perform the work they wished to do; 519 were not able to read nor write, 106 could not read and 97 could not write.

The names and addresses of 953 children who were refused permits in Baltimore City were sent to the De-

partment of Public Instruction for their investigation, and from their report furnished us the following are the results, viz.: Six hundred and seventy-nine, or 71.2 per cent., were forced to return to school, 1 was living beyond the city limits, 62 were not located, 57 had received permits, 85 were working at home or at service, 23 were over 16 years of age, 8 had doctors' certificates which excused them from attending school, 1 had been placed in an institution and 1 was excused from school because feeble-minded.

The law prohibiting the employment of children under 16 years of age for more than ten hours in any one day (Chapter 443, Acts of 1892), because of there being no penalty attached, was never observed. At the last session of the Legislature the law was amended so as to read "any person who shall so employ a child or suffer or permit such employment, shall be guilty of a misdemeanor, and upon conviction shall be fined not more than one hundred dollars, one-half of which shall be paid to the Maryland Bureau of Statistics, which is hereby invested with the general duty and power of enforcing this law." Since this amendment was passed our inspectors have been assigned this additional duty, and the law is now being generally observed.

Article 27, Section 423, Code of Public General Laws, which prohibits the employment of children for the purpose of "singing, playing on musical instruments, rope walking, dancing, peddling, begging or any mendicant or wandering business whatsoever," also comes under the supervision of our inspectors, who have been instructed to enforce this law, and during the year three arrests were made for its violation. In one case the party was fined, another case was sent to the Grand Jury, where it was dismissed, and the third case was dismissed by the magistrate.

A law prohibiting the employment of children under 14 years of age by telegraph telephone or messenger

companies was passed at the session of 1910, Chapter 587, and reads as follows:

"SECTION 1. *Be it enacted by the General Assembly of Maryland*, That no telegraph, telephone or messenger company employ any person under 14 years of age to call for or deliver any message.

"SEC. 2. That no telegraph, telephone or messenger company shall require or permit any person in its employ under 16 years of age to call for or deliver any telegram or other message between the hours of eight o'clock P. M. and eight o'clock A. M.

"SEC. 3. That no telegraph, telephone or messenger company shall require or permit any minor person in its employ to call for or deliver any telegram or other message at or to any house of ill repute or questionable character wherein is conducted any business tending to demoralize by example or contact said minor.

"SEC. 4. Any company or representative thereof who shall violate the provisions of this bill shall be subject to a fine of not less than one hundred dollars nor more than five hundred dollars, or sixty days in jail, or both, at the discretion of the court, for each and every offense.

This law as far as not employing children under 14 years of age is being well observed.

During the year this Bureau had printed on cardboard, for the convenience of the public, a synopsis of the labor laws, with their penalties, which was furnished to the manufacturing establishments and department stores throughout the city, with instructions to hang them in a conspicuous place, so that all may become familiar with these laws, and as an evidence of their appreciation we have had a number of applications for additional copies.

Number of places inspected—3,129.

Character of business in places inspected—Manufacturing 1,084, wholesale stores 143, wholesale and retail stores 58, retail stores 1,553, offices 226, amusements 29, banks 14, hotels 4, transfer 6, transportation 12.

Total number of persons employed in places inspected—21,847, of whom 14,176 were males and 7,671 females. Between the ages of 12 and 14 years there were 142 males and 174 females. Between the ages of 14 and 16 years there were 468 males and 444 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.39; stores, offices, etc., \$2.94.

Sanitary condition of premises—3,126 good, 3 bad.

DISTRICT B.

Number of places inspected—4,311.

Character of business in places inspected—Manufacturing 1,768, wholesale stores 43, wholesale and retail stores 57, retail stores, 2,333, offices 55, amusements 26, banks 6, hotels 7, transfer 15, transportation 1.

Total number of persons employed in places inspected—19,347, of whom 14,059 were males and 5,288 females. Between the ages of 12 and 14 years there were 46 males and 81 females. Between the ages of 14 and 16 years there were 302 males and 254 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.34; stores, offices, etc., \$3.00.

Sanitary condition of premises—4,308 good, 3 fair.

DISTRICT C.

Number of places inspected—2,905.

Character of business in places inspected—Manufacturing 852, wholesale stores 405, wholesale and retail stores 31, retail stores 1,245, offices 302, amusements 15, banks 10, hotels 3, transfer 22, transportation 20.

Total number of persons employed in places inspected—40,074, of whom 26,817 were males and 13,257 females. Between the ages of 12 and 14 years there were 234 males and 270 females. Between the ages of 14 and 16 years there were 693 males and 873 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.94; stores, offices, etc., \$3.53.

Sanitary condition of premises—2,903 good, 2 fair.

DISTRICT D.

Number of places inspected—2,786.

Character of business in places inspected—Manufacturing 827, wholesale stores 19, wholesale and retail stores 29, retail stores 1,763, offices 89, amusements 20, banks 6, hotel 1, transfer 30, transportation 2.

Total number of persons employed in places inspected—16,607, of whom 13,693 were males and 2,914 females. Between the ages of 12 and 14 years there were 80 males and 83 females. Between the ages of 14 and 16 years there were 233 males and 229 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.77; stores, offices, etc., \$2.79.

Sanitary condition of premises reported good.

DISTRICT E.

Number of places inspected—6,131.

Character of business in places inspected—Manufacturing 1,503, wholesale stores 166, wholesale and retail stores 83, retail stores 2,084, offices 2,184, amusements 31, banks 33, hotels 20, transfer 55, transportation 32.

Total number of persons employed in places inspected—56,652, of whom 41,452 were males and 15,200 females. Between the ages of 12 and 14 years there were 215 males and 197 females. Between the ages of 14 and 16 years there were 998 males and 723 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.36; stores, offices, etc., \$2.93.

Sanitary condition of premises—6,129 good, 2 fair.

DISTRICT F.

Number of places inspected—640.

Character of business in places inspected—Manufacturing 184, wholesale stores 2, wholesale and retail stores 9, retail stores 412, offices 15, amusements 5, banks 2, hotels 2, transfer 8, transportation 1.

Total number of persons employed in places inspected—6,103, of whom 4,278 were males and 1,825 females. Between the ages of 12 and 14 years there were 49 males and 53 females. Between the ages of 14 and 16 years there 161 males and 130 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.12; stores, offices, etc., \$2.50.

Sanitary condition of premises reported good.

DISTRICT G.

Number of places inspected—420.

Character of business in places inspected—Manufacturing 132, wholesale stores 4, retail stores 272, offices 6, amusements 4, transfer 2.

Total number of persons employed in places inspected—1,497, of whom 1,212 were males and 285 females. Between the ages of 12 and 14 years there were 7 males. Between the ages of 14 and 16 years there were 22 males and 2 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.31; stores, offices, etc., \$2.33.

Sanitary condition of premises reported good.

Results of Inspections in Counties

ALLEGANY COUNTY.

Number of places inspected—312.

Character of business in places inspected—Manufacturing 95, wholesale stores 10, wholesale and retail stores 8, retail stores 168, offices 4, amusements 8, banks 10, hotels 8, transportation 1.

Total number of persons employed in places inspected—8,782, of whom 7,347 were males and 1,435 females. Between the ages of 12 and 14 years there were 45 males and 7 females. Between the ages of 14 and 16 years there were 232 males and 82 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.94; stores, offices, etc., \$3.14.

Sanitary condition of premises reported good.

ANNE ARUNDEL COUNTY.

Number of places inspected—228.

Character of business in places inspected—Manufacturing 56, wholesale stores 4, wholesale and retail stores 7, retail stores 147, offices 6, amusements 2, banks 4, hotels 2.

Total number of persons employed in places inspected—1,874, of whom 1,570 were males and 304 females. Between the ages of 12 and 14 years there were 11 males and 4 females. Between the ages of 14 and 16 years there were 36 males and 9 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.18; stores, offices, etc., \$2.59.

Sanitary condition of premises reported good.

BALTIMORE COUNTY.

Number of places inspected—661.

Character of business in places inspected—Manufacturing 190, wholesale and retail stores 3, retail stores 438, offices 20, amusements 2, banks 4, hotels 3, transportation 1.

Total number of persons employed in places inspected—13,227, of whom 12,018 were males and 1,209 females. Between the ages of 12 and 14 years there were 65 males and 34 females. Between the ages of 14 and 16 years there were 295 males and 110 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.18; stores, offices, etc., \$2.83.

Sanitary condition of premises reported good.

CAROLINE COUNTY.

Number of places inspected—41.

Character of business in places inspected—Manufacturing 14, retail stores 25, amusements 2.

Total number of persons employed in places inspected—225, of whom 180 were males and 45 females. Between the ages of 12 and 14 years there were 2 males. Between the ages of 14 and 16 years there were 6 males.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.28.

Sanitary condition of premises reported good.

CARROLL COUNTY.

Number of places inspected—87.

Character of business in places inspected—Manufacturing 28, wholesale stores 2, wholesale and retail stores 3, retail stores 46, banks 6, hotels 2.

Total number of persons employed in places inspected—568, of whom 406 were males and 162 females. Between the ages of 12 and 14 years there was 1 female. Between the ages of 14 and 16 years there were 14 males and 5 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.98; stores, offices, etc., \$2.05.

Sanitary condition of premises reported good.

CECIL COUNTY.

Number of places inspected—83.

Character of business in places inspected—Manufacturing 41, retail stores 41, amusement 1.

Total number of persons employed in places inspected—1,520, of whom 1,391 were males and 129 females. Between the ages of 12 and 14 years there were 5 males. Between the ages of 14 and 16 years there were 25 males and 6 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.36; stores, offices, etc., \$5.25.

Sanitary condition of premises reported good.

DORCHESTER COUNTY.

Number of places inspected—128.

Character of business in places inspected—Manufacturing 46, wholesale stores 2, retail stores 74, offices 3, amusements 2, hotel 1.

Total number of persons employed in places inspected—788, of whom 518 were males and 270 females. Between the ages of 12 and 14 years there were 6 males and 2 females. Between the ages of 14 and 16 years there were 17 males and 8 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.00.

Sanitary condition of premises reported good.

FREDERICK COUNTY.

Number of places inspected—215.

Character of business in places inspected—Manufacturing industries 63, wholesale stores 6, wholesale and retail stores 14, retail stores 120, offices 3, amusement 1, banks 6, hotels 2.

Total number of persons employed in places inspected—1,877, of whom 1,429 were males and 448 females. Between the ages of 12 and 14 years there were 23 males and 7 females. Between the ages of 14 and 16 years there were 43 males and 27 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.44; stores, offices, etc., \$2.41.

Sanitary condition of premises reported good.

HARFORD COUNTY.

Number of places inspected—80.

Character of business in places inspected—Manufacturing industries 24, wholesale and retail store 1, retail stores 53, office 1, amusement 1.

Total number of persons employed in places inspected—772, of whom 657 were males and 115 females. Between the ages of 12 and 14 years there was 1 male. Between the ages of 14 and 16 years there were 22 males and 3 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$4.52; stores, offices, etc., \$3.50.

Sanitary condition of premises reported good.

HOWARD COUNTY.

Number of places inspected—51.

Character of business in places inspected—Manufacturing 18, retail stores 30, offices 2, hotel 1.

Total number of persons employed in places inspected—897, of whom 592 were males and 305 females. Between the ages of 12 and 14 years there were 15 males and 11 females. Between the ages of 14 and 16 years there were 31 males and 36 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.60; stores, offices, etc., \$2.88.

Sanitary condition of premises reported good.

KENT COUNTY.

Number of places inspected—32.

Character of business in places inspected—Manufacturing 6, retail stores 24, amusements 2.

Total number of persons employed in places inspected—240, of whom 178 were males and 62 females. Between the ages of 12 and 14 years there were 2 males. Between the ages of 14 and 16 years there were 10 males and 3 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.56; stores, offices, etc., \$2.00.

Sanitary condition of premises reported good.

PRINCE GEORGE'S COUNTY.

Number of places inspected—58.

Character of business in places inspected—Manufacturing 14, wholesale and retail store 1, retail stores 40, amusements 3.

Total number of persons employed in places inspected—490, of whom 301 were males and 189 females.

Between the ages of 12 and 14 years there were 6 males and 10 females. Between the ages of 14 and 16 years there were 12 males and 16 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.00; stores, offices, etc., \$4.00.

Sanitary condition of premises reported good.

QUEEN ANNE'S COUNTY.

Number of places inspected—34.

Character of business in places inspected—Manufacturing 6, retail stores 25, office 1, amusement 1, hotel 1.

Total number of persons employed in places inspected—102, of whom 82 were males and 20 females. Between the ages of 12 and 14 years there was 1 male. Between the ages of 14 and 16 years there were 4 males.

Average weekly earnings of children under 16 years of age—In stores, offices, etc., \$2.90.

Sanitary condition of premises reported good.

SOMERSET COUNTY.

Number of places inspected—105.

Character of business in places inspected—Manufacturing 29, wholesale stores 4, retail stores 61, offices 5, amusements 4, hotel 1, transportation 1.

Total number of persons employed in places inspected—625, of whom 348 were males and 277 females. Between the ages of 12 and 14 years there were 2 males. Between the ages of 14 and 16 years there were 9 males and 10 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.25; stores, offices, etc., \$2.13.

Sanitary condition of premises reported good.

TALBOT COUNTY.

Number of places inspected—62.

Character of business in places inspected—Manufacturing industries 15, retail stores 43, amusements 4.

Total number of persons employed in places inspected—364, of whom 258 were males and 106 females. Between the ages of 12 and 14 years there were 1 male and 1 female. Between the ages of 14 and 16 years there were 7 males and 7 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.49; stores, offices, etc., \$3.38.

Sanitary condition of premises reported good.

WASHINGTON COUNTY.

Number of places inspected—162.

Character of business in places inspected—Manufacturing 66, wholesale stores 4, wholesale and retail stores 7, retail stores 73, offices 2, amusement 1, banks 6, hotels 3.

Total number of persons employed in places inspected—4,153, of whom 2,920 were males and 1,233 females. Between the ages of 12 and 14 years there were 41 males and 35 females. Between the ages of 14 and 16 years there were 93 males and 67 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.33; stores, offices, etc., \$2.65.

Sanitary condition of premises reported good.

WICOMICO COUNTY.

Number of places inspected—151.

Character of business in places inspected—Manufacturing 61, wholesale stores 6, wholesale and retail stores 2, retail stores 73, offices 3, amusements 5. hotel 1.

Total number of persons employed in places inspected—1,922, of whom 1,398 were males and 524 females. Between the ages of 12 and 14 years there were 10 males and 7 females. Between the ages of 14 and 16 years there were 30 males and 32 females.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.55; stores, offices, etc., \$3.50.

Sanitary condition of premises reported good.

WORCESTER COUNTY.

Number of places inspected—138.

Character of business in places inspected—Manufacturing 33, wholesale store 1, retail stores 97, offices 3, amusements 3, hotel 1.

Total number of persons employed in places inspected—871, of whom 724 were males and 147 females. Between the ages of 12 and 14 years there were 17 males. Between the ages of 14 and 16 years there were 19 males.

Average weekly earnings of children under 16 years of age—In manufacturing industries \$3.46; stores, offices, etc., \$1.78.

Sanitary condition of premises reported good.

Summary of Inspections

This summary includes the persons employed in the manufacturing of the different articles coming under the Factory Inspection Law. They are also included in the tables which follow, and are designated by an asterisk (*). It is important to know the number of persons employed in the various industries inspected in Baltimore City and the counties of Maryland, and also the occupations in which they are engaged. The total number of persons employed in the State was 201,424, of whom 148,004 were males and 53,420 were females; of this number 1,026 were males and 977 were females between the ages of 12 and 14 years, and 3,782 males and 3,076 females were between the ages of 14 and 16 years. The number of persons employed in the manufacturing industries was 125,329, of whom 89,070 were males and 36,259 were females. These were divided into 764 males and 911 females between the ages of 12 and 14 years, and 2,644 males and 2,668 females between the ages of 14 and 16 years. The number employed in stores, offices, etc., was 76,095, of whom 58,934 were males and 17,161 were females; of these 262 were males and 66 were females between the ages of 12 and 14 years, and 1,138 males and 408 females were between the ages of 14 and 16 years.

The tables that follow give the number of persons employed by age, sex, industries and districts.

As shown by Table E, the number of persons employed in the manufacturing industries in Baltimore City was 93,262, of whom 62,341 were males and 30,921 were females; 552 males and 793 females were between the ages of 12 and 14 years, and 1,879 males and 2,262 females were between 14 and 16 years of age, making the total number of children under 16 years of age employed

in the manufacturing industries in Baltimore City 5,486, as compared with 4,356 in 1909.

The largest number of children was employed in the manufacturing of shirts, shirtwaists, overalls, etc.; the next largest number in clothing, candies, cotton duck, cigars and cigarettes, paper boxes, wooden boxes and tin boxes next in the order named.

The number of persons employed in stores, offices, etc., in Baltimore City, as shown by Table F, was 68,865, of whom 53,346 were males and 15,519 were females; 221 males and 65 females were between the ages of 12 and 14 years, and 998 males and 393 females were between the ages of 14 and 16 years, making a total of 1,677 children employed in stores, offices, etc., in Baltimore City between the ages of 12 and 16 years, as, compared with 1,706 in 1909. This shows a decrease of 29 in 1910 from 1909, while there were 169 less in 1909 than in 1908.

We have ascertained whenever possible the weekly earnings of children under 16 years of age employed in the various industries, and from the figures gathered we find the average wages of children employed in the manufacturing industries in Baltimore City to be \$3.68 per week, and for those employed in stores, offices, etc., \$2.95 per week. These figures show an average increase of 23 cents per week in wages of those employed in the manufacturing industries and an average decrease of 3 cents per week in wages of those employed in stores, offices, etc., which possibly accounts for the decrease in the number of children employed in the latter and an increase in the number employed in the former vocations, in addition to the desire to learn trades.

Table G gives the number of persons employed in manufacturing industries inspected in the different counties in the State as 32,067, of whom 26,729 were males and 5,338 females. Baltimore County leads in number, with 11,934, of whom 10,972 were males and 962 females. Allegany follows with 7,453, of whom 6,478 were males

and 975 females. Washington is third in point of number employed, with Wicomico, Cecil, Anne Arundel, Frederick, Howard, Harford, Worcester, Dorchester, Somerset, Prince George's, Carroll, Talbot, Kent and Caroline next in the order named.

Table H shows the number of persons employed in stores, offices, etc., inspected in the counties as 7,230, of whom 5,588 were males and 1,642 were females.

The average wages of children under 16 years of age employed in the manufacturing industries in the counties were \$4.05, and in stores, offices, etc., \$2.82.

Table I gives the total number of persons employed in all manufacturing industries, stores, offices, etc., inspected throughout the State, including Baltimore City, by age and sex.

The hours of labor required per day in manufacturing industries reported in Baltimore City were as follows: Six hundred and eighty-eight industries worked 8 hours; 91, $8\frac{1}{2}$ hours; 1,326, 9 hours; 259, $9\frac{1}{2}$ hours; 1,483, 10 hours; 7, $10\frac{1}{2}$ hours; 28, 11 hours, and 31, 12 hours.

The hours of labor required per day in manufacturing industries reported in the counties were as follows: Fifty-two, 8 hours; 6, $8\frac{1}{2}$ hours; 144, 9 hours; 24, $9\frac{1}{2}$ hours; 367, 10 hours; 13, $10\frac{1}{2}$ hours; 11, 11 hours, and 21, 12 hours.

FACTORY INSPECTION

The Factory Inspection or Sweatshop Law was passed in 1884, and amended in 1902, for the betterment of the sanitary conditions surrounding the workrooms in which coats, vests, trousers, knee pants, overalls, cloaks, hats, caps, suspenders, jerseys, blouses, waists, waistbands, underwear, furs, fur trimmings, fur garments, shirts, purses, artificial flowers, cigarettes and cigars were made. This law requires that no room of any tenement or dwelling shall be used for the manufacturing of any of the above articles, except by the immediate members of the family living therein, which shall be limited to a husband and wife, their children or the children of either. No room shall be used until a permit shall first have been obtained, stating the maximum number of persons allowed to be employed therein. Such permit shall not be granted until an inspection of the premises has been made. Every workroom must be cleaned once in every twenty-four hours, have sufficient light and ventilation, and contain at least 400 cubic feet of air space to each person employed therein. These are the main requirements under which the aforementioned articles can be made, and it has been the object of this Bureau not only to enforce this law rigidly, but to lessen the number of tenements and dwellings in which clothing, etc., are made, and increase the number of factories which have the advantages of better light, ventilation and sanitary conditions, in addition to being separated from the homes. The results have been a gradual improvement, as shown by a reduction in the number of permits issued from year to year, while the number engaged in the manufacturing of these articles have steadily increased, until those em-

ployed at their homes in making any of these articles in whole or in part are only 5 per cent. of the total number employed, while 95 per cent. work in factories. .

The number of new permits issued during the year for the manufacturing of any of these articles in factories and shops was 422, authorizing the employment of 15,823 people, and in tenements and dwellings 337, authorizing the employment of 1,066 people, making the total number of new permits issued 759, authorizing the employment of 16,889 men, women and children.

The number of permits outstanding January 1, 1910, was 1,759, authorizing the employment of 48,142, making the total number of permits outstanding December 31, 1910, 2,518, authorizing the employment of 65,031 men, women and children.

The number of inspections made under the Factory Inspection Law was 1,867 first and 752 second inspections, making a total of 2,619. The largest number was made in District A, with B, C and E next in the order named.

There were 9 arrests made during the year for violations of this law, 6 were for working without permits, of which 4 were convicted and fined, and 2 were dismissed. Two arrests were made for having more hands employed than authorized under their permits, thus reducing the amount of air space to less than 400 cubic feet for each person employed. In one of these cases a fine was imposed, and the other case is still pending in court. Another arrest was made for working hands in a dwelling who were not members of the immediate family, and the party was convicted and fined.

The sanitary conditions of the workrooms as well as the premises have greatly improved from year to year. Out of 2,447 rooms inspected in 1910 there were only 2 reported dirty, as compared with 8 in 1909 and 15 in 1908, and of 1,652 premises inspected in 1910 there were only 3 of which the sanitary condition was reported bad, as compared with 5 in 1909 and 12 in 1908. These im-

proved conditions are the results of a better observance of the law, thus avoiding unnecessary annoyance and expense, and at the same time having a tendency to create a greater demand and better prices for the articles made, by helping to maintain the reputation heretofore established for Baltimore-made garments as being the best, as in no other city is clothing made under better sanitary conditions.

TABLE No. 1.

TOTAL PERMITS ISSUED IN BALTIMORE CITY DURING THE YEAR AND NUMBER OF PEOPLE AUTHORIZED TO WORK THEREUNDER.

Factories and Shops	Number of Permits Issued		Number of People Authorized to Work	
	1910	1909	1910	1909
Districts—A.....	101	113	2,248	1,996

TENEMENTS AND DWELLINGS				
Districts—A.....	148	151	411	354
B.....	107	140	282	414
C.....	16	41	76	96
D.....	29	74	135	215
E.....	29	29	133	163
F.....	3	14	23	36
G.....	5	5	6	8
Totals.....	337	454	1,066	1,286
Grand Totals.....	759	862	16,889	16,200

As will be seen by the preceding table, 759 permits were issued during the year 1910, authorizing the employment of 16,889 people, 422 being issued to factories and shops, authorizing the employment of 15,823 people, and 337 were issued to tenements and dwellings, authorizing the employment of 1,066 people. These figures show that the number of people working in tenements and dwellings are only about 6% of the number working in factories and shops, as compared with 8 2-3% in 1909, which shows that the tenements and dwellings are gradually being abandoned as workrooms. The number of permits issued in 1910 were less than in 1909, and in 1908 the number was nearly double that of 1909. These figures only indicate the number of new permits issued to those starting in business or changing their location, and do not include those who had received permits prior to 1910, consequently the great number of permits issued in 1908 was due to the fact that a thorough inspection of the city was made, and a great many places were inspected for the first time, while in 1909 and 1910 the figures indicate the number of changes, duplicates and new places. While the number of permits issued in 1910 were less by 103 than in 1909, the number of persons authorized to work thereunder was 689 greater in 1910 than in 1909.

The largest number of permits was issued in District A, with B, E, C and D next in the order named, while the greatest number of people authorized to work was in District C, with E, A, B and D next in the order named, due to the large factories in these districts.

TABLE No. 2.

TOTAL PERMITS OUTSTANDING DEC. 31, 1910, AND NUMBER OF PEOPLE AUTHORIZED TO TO WORK THEREUNDER.

Factories and Shops	Number of Permits Outstanding	Number of People Authorized to Work
Districts—A.....	287	7,364
B.....	316	5,986
C.....	291	27,826
D.....	64	2,710

E.....	96	532
F.....	7	62
G.....	9	13
Totals.....	1,107	3,398
Grand Totals.....	2,518	65,031

The total number of permits outstanding December 31, 1910, as is shown by Table No. 2, is 2,518, authorizing the employment of 65,031 people, 1,411 being issued to factories and shops, authorizing the employment of 61,723 people, and 1,107 permits were issued to tenements and dwellings, authorizing the employment of 3,398 people. This shows that there were 91 less permits outstanding December 31, 1910, than there were the same time in 1909, although the number authorized to work was greater in 1910 than in 1909, by 3,298, showing that the larger factories are taking the place of the tenements and dwellings. The most gratifying results shown

by this table, however, are the facts that out of the 65,031 people engaged in the manufacturing of those articles coming under the Factory Inspection Law only 5% are employed at their homes, while 95% are employed in factories and shops which have no communication with the homes.

Table No. 3 shows the articles manufactured under the permits issued by districts in tenements and dwellings, and Table No. 4 shows the articles manufactured under the permits issued by districts in factories and shops.

The largest number of permits issued for the manufacturing of any one of the articles enumerated in tenements and dwellings was for pants, with ladies' suits and skirts, clothing, coats, cigars, underwear and vests next in the order named, and in factories and shops ladies' suits and pants are close competitors for first place, with coats, clothing, cigars, vests and shirts next in the order named.

G	13
Totals	1,867	752

Table No. 6 shows the total number of inspections made for the years 1909 and 1910, for the purpose of comparison. These figures show that there were 267 less inspections in Baltimore City in 1910 than in 1909, while in 1909 there were 1,142 less than in 1908. This falling off is in the second and third inspections and not in the number of factories inspected. Where we find model factories that are complying with the law in every respect, we wish to avoid them unnecessary annoyance by frequent inspections, consequently the better observance of the law the less the number of inspections.

TABLE NO. 6.

Totals.....	2,619	2,886

Table No. 7 divides up the 1,827 buildings inspected under the Factory Inspection Law in the following characters by districts, which show that the number of dwellings far exceeded either the shops, factories or tenements, and that the greater number is located in District B, with A, D, E and C next in the order named.

While the number of buildings inspected in 1910 was less than in 1909 by 189, 108 of this number was due to the decreasing number of dwellings in which clothing, etc., are manufactured.

District B contains the greatest number of dwellings and tenements, with an average of about 1.15 families to each inspection and 4.8 persons to each family, while the next greatest number of dwellings and tenements is

located in District A, with an average of about 2 families to each inspection and 4.5 persons to the family. These are the two districts which take in all that section extending south from North Avenue to the water, and east from Guilford Avenue and South Street to the city limits, and contains the greatest portion of our foreign population.

Table No. 13 gives the number of children between the ages of 12 and 16 years, by sex and districts, employed in the manufacturing in whole or part of any of the articles coming under the Factory Inspection Law. These same children are shown in the Child-Labor tables, and are designated by an asterisk (*).

The total number employed between the ages of 12 and 14 years is 482, of whom 86 are males and 396 are females, and the total number employed between the ages of 14 and 16 years is 1,681, of whom 417 are males and 1,264 are females.

Table No. 14 gives by districts the various articles manufactured, showing that the largest number of places was devoted to the manufacturing of pants, with clothing, coats, cigars, ladies' suits, cloaks and skirts, and underwear, overalls and kimonos next in the order named.

FREE EMPLOYMENT BUREAU

Because of the prosperity which our State has enjoyed during the past year, and the demand for labor, both native and alien, in Baltimore City, skilled and unskilled labor alike have been generally employed. In fact, since the big fire seven years ago, the public improvements, involving the expenditure of millions of dollars, which were and are still in progress, that is to say, new docks, the sewerage system, park extension, annex improvements, conduits, etc., have created a demand for labor greater than the supply. Consequently, our Employment Bureau was little needed in bringing the unemployed and those needing their services together.

The number applying for positions during the year was 151, of whom 112 were males and 39 females, as compared with 255 in 1909, of whom 233 were males and 22 females. Notwithstanding the number of applicants for positions in 1909 was much greater than in 1910, the number of positions secured was 32 in each year. Those applying for help in 1910 numbered 70, of whom 23 desired males and 47 females, while in 1909, 50 applied for help, 39 desiring males and 11 females.

Table No. 1, which follows, gives the number applying for employment and the kind of work desired, and the applications for help and the number of positions secured.

STRIKES AND LOCKOUTS

This Bureau was not called upon to act as mediator or arbitrator between employer and employe during the year 1910, as there have been no strikes or lockouts of sufficient importance to require our services, but a general good feeling of industrial pride exists.

Capital and labor are beginning to understand their natural dependence upon each other, and the mistake of contentions, which are caused almost entirely by the question of wages, and which do not result in permanent benefit. As each class will more fully understand its proper relationship, its actions will give evidence of better attitude, thus inducing still more cordial relations and lessening industrial friction. Every means should be used to prevent industrial strife by making reasonable concessions and avoiding unjust demands before the strike or lockout actually occurs, which always results in financial loss to the parties concerned and a sacrifice of public interest.

This Bureau has endeavored to place itself upon the most friendly relations with organized labor as well as with their employers, both as individuals and corporations, and is ever ready to give its assistance in bringing about a reconciliation between them by mediating or arbitrating their differences when they exist.

The number of strikes and lockouts was 9 in 1910, as compared with 13 in 1909 and 16 in 1908.

The number of persons involved in strikes and lockouts in 1910 was 1,031, as compared with 4,852 in 1909 and 2,522 in 1908.

The estimated loss in wages in 1910 was \$99,060, as compared with \$317,600 in 1909 and \$41,424.40 in 1908.

Of the 9 strikes 4 were successful, 1 partially so, 2 still remain unsettled and 2 were unsuccessful. Five of the strikes were ordered by labor organizations and 4 were not. Three of the strikes were caused by a demand for an increase in wages, 1 because the men were charged for gasoline, 1 by efforts to organize, 1 by dissatisfaction with foreman, 1 for reduction of hours, 1 sympathetic and 1 because of change of management.

The most serious of these strikes was that of the moulders, caused by a demand for an increase in wages. The strike occurred on August 30, involving 8 firms and 228 men. The men have reached an agreement with 3 of these firms and returned to work, while those of the other 5 firms remain unsettled.

The strike involving the greatest number of men was that of the beef packers and slaughterers, numbering 350 men. They struck December 20, because of change in the manager, and returned to work next day, when the former manager was reinstated.

The strike of the sheet-metal workers, which occurred August 1, involving 16 firms and 147 men, lasted 21 days, when an agreement was reached by which the men returned to work. The fourth strike in importance was in the clothing trade, affecting 1 firm and 150 males and 75 females. This strike occurred September 1, and an agreement was reached November 26, when work was resumed.

The strike of the B. & O. machinists, which occurred May 28, 1909, involving 265 men, was settled December 27, 1910, by an agreement on part of the B. & O. Railroad Company to reinstate the men.

The following tables will show in detail the industries and occupations in which the strikes occurred, the duration of the same and the number of persons involved.

TABLE No. 1.

IN LABOR CIRCLES

There were no events of any great importance in labor circles during the year 1910 in the State of Maryland.

The strike of the machinists employed by the Baltimore and Ohio Railroad, which occurred in May, 1909, because of the introduction of the piecework system at the Mount Clare Shops, was finally adjusted December 27, 1910, and the following is the agreement under which the men returned to work:

“BALTIMORE, MD., December 27, 1910.

“*Mr. A. W. Thompson,*

“*General Manager, Baltimore and Ohio Railroad.*

“DEAR SIR: We herewith submit for your favorable consideration the following as a basis for the adjustment of the strike of the machinists, apprentices and helpers of the shops of the Baltimore and Ohio Railroad and the Baltimore and Ohio Southwestern Railroad:

“1. The 400 former employes now out on strike, and out of employment to be reinstated in the shops where they were formerly employed within thirty days. All other employes out on strike to be given opportunity of accepting re-employment within sixty days.

“2. Machinists and apprentices employed on a piecework basis at shops where piecework had been established prior to the time they left the service will return to work on a piecework basis. At shops where piecework has been established since the men referred to left their positions will return to work on a daywork basis for thirty days, after which specified time they will take up piecework, but be given the option of daywork

if there are daywork positions available in the shop in which they are employed. At shops where day basis is in effect at this time the men will return on a daywork basis.

"3. All employes reinstated under the above conditions to be entitled to all former benefits of insurance, relief feature, etc., which they enjoyed at the time they left their employment with either of the above mentioned railroads. All former employes reinstated to retain their seniority from date of last employment prior to the time they left the service.

"4. All injunction suits to be dissolved within a reasonable time after the strike has been officially declared at an end.

"5. Foremen who went out with the machinists will be reinstated as machinists.

"Respectfully submitted,

"Machinists Committee.

(Signed) "C. D. SUMMERS, *Chairman*;

"E. A. HUNT, *Secretary*.

"Accepted on December 27, 1910, to become effective the day after the strike is declared off and made effective.

(Signed) "A. W. THOMPSON,

"*Gen'l Mgr., B. & O. R. R.*"

An agreement was reached on April 1, 1910, between John B. Adt and My Maryland Lodge, No. 186, I. A. of M., and is the final culmination of a strike of the machinists in the employ of Mr. Adt, which occurred July 13, 1903, and was called off by the union on October 23, of the same year. The men who left their places obtained employment elsewhere at union wages, and the question of recognition of the union has been left open until this final agreement was made. Out of the strike grew a boycott of several firms, and the issuance of an injunction by Judge Dennis, on the appeal of Mr. John B. Adt, a manufacturer on North Street. The following is a copy of the agreement:

[COPY.]

"Outline of Agreement Between John B. Adt, of Baltimore, Md., and the International Association of Machinists of Baltimore, Md.

"1. That on and after April 1, 1910, John B. Adt agrees to employ only members of the International Association of Machinists in good standing.

"2. There may be employed one apprentice to every five (5) machinists, and one (1) for the shop.

"3. The said firm has the right to discharge any machinists for incompetency, insobriety, insubordination, or other irregularities in attendance to his work.

"4. Should any differences arise between the employer and the employe that cannot be settled between them it shall be referred to a committee for arbitration. Said committee shall consist of two parties representing the company and two parties representing the employes, who shall be appointed by the lodge, who shall meet within five (5) days upon receipt of grievances. If this committee shall fail to agree, the said committee shall select a disinterested party, whose decision shall be final and binding on both parties; it shall also be agreed that pending such settlement the employes shall not strike nor shall the employer lock them out.

"5. Nine hours shall constitute a full day's work on and after the above date.

"6. All time worked over nine hours per day shall be paid for at the rate of time and one-half to twelve o'clock midnight; from twelve o'clock midnight to seven A. M. double time shall be allowed.

"7. All work performed on Sundays, Washington's Birthday, New Year's Day, Decoration Day, May 30, Labor Day, Thanksgiving Day and Christmas shall be paid for at the rate of double time.

"8. Members shall not be discriminated against for taking part in their organization, such as shop steward, &c.

"9. The same rate of wages shall be paid as at present.

"10. This agreement shall take effect April 1, 1910, and continue in force one year from date of signing, but shall be opened thirty days prior to its expiration for the purpose of discussing any question that may arise, or amending any section herein, but if there is no section to be amended or question arise which may require the attention of the parties to this agreement it shall continue in force for another year.

"11. The International Association of Machinists do hereby agree to allow the said firm to employ Haberstumpf, Haegerich and Denker, as heretofore, and will not insist on them joining the machinists' organization, and the said John B. Adt hereby agrees to give the Association a free hand in persuading the machinists in his employ to become union members of the Association, but in the event of any refusing to join the Association the said John B. Adt may retain him in his employ.

"12. In consideration of the signing of this agreement, the International Association of Machinists agrees to use all legitimate means to further the interests of the company signing this agreement.

"13. In consideration of the premises and the mutual covenants contained in the above agreement, John B. Adt hereby agrees to suspend the operation of the injunction obtained against the Baltimore Federation of Labor, the Local Lodge of Machinists, No. 186, of the International Association of Machinists and all others, same to be without any binding effect as far as either the complainant or defendants are concerned for the period of one (1) year. The defendants and each of them are to conduct themselves toward the complainant, John B. Adt, the same as though no injunction had been secured, and do hereby stand in the same position as to all intents and purposes as though no injunction had ever been secured. The said John B. Adt hereby binds himself not to in any way, manner or form have any of the defend-

ants or anyone else attached for contempt of court for the violation of any of the provisions of the injunction obtained by him in the Circuit Court of Baltimore City.

"As witness our hands and seals this third day of March, in the year nineteen hundred and ten.

(Signed)

"JOHN B. ADT,

"By ALBERT W. ADT, *Attorney*. [SEAL]

"MY MARYLAND LODGE, No. 186, I. A. OF M.

"G. M. HENDERSON, *Bus. Rep.* [SEAL]

(Witness)

"W. N. ABERCROMBIE,

"ROBT. E. LEE, *Attorney-at-Law*."

The usual Labor Day celebration was held at Electric Park under the auspices of the central body and was largely attended.

The Sixth Annual Convention of the Maryland State Federation of Labor convened on Tuesday, September 13, 1910, at Eagles' Hall, Washington, D. C., twenty-nine local organizations being represented.

Mr. Samuel Gompers, President, and Frank Morrison, Secretary of the American Federation of Labor, addressed the delegates. The convention was in session three days, and transacted considerable business.

The Following Items Were Gathered From The Various Local Unions

Local No. 61, Printing Pressmen—Have a committee on the sanitary condition of offices, also on tuberculosis. Have established a home at Hales Springs, Tenn., for tubercular members, where they will be taken care of during their sickness at cost.

Local No. 61, Steam, Hot Water and Power Pipe Fitters—Are on strike for better conditions.

Local No. 25—Commercial Telegraphers—Have increased their membership and bettered their conditions generally.

Local No. 108, Typographical, Hagerstown—Have had their wages increased twenty-five cents per day.

Local No. 244, Typographical, Cumberland—Are endeavoring to have the union label placed on all printed matter.

Local No. 104, Upholsterers—Have doubled their membership, and cannot supply the demand for help.

Local No. 295, Paper-hangers—Have had their wages increased thirty cents per day and a new price list adopted.

Local No. 59, Pants Pressers—The year 1910 was very dull, and the outlook for 1911 is no better.

Local No. 48, Journeymen Plumbers and Gas-fitters—Have had their wages increased fifty cents per day.

Lodge No. 212, Machinists, Cumberland—Have been on strike since June, 1909, for better conditions and to prevent the extension of the piecework system.

Local No. 19, Moulders—Have four shops still out on strike for an increase in wages.

Local No. 40, Musicians—Reduced their initiation fee from fifty dollars to ten dollars and admitted about 100 new members in order to unionize the city.

Local No. 241, Journeymen Barbers—Have shortened the hours of labor and increased their scale of wages.

Local No. 1024, Carpenters and Joiners—Have had their wages increased twenty-five cents per day.

Local No. 4, Cloakmakers—Are endeavoring to secure an eight-hour workday.

Local No. 12353, Hair Spinners—Are trying to have adopted a uniform scales of wages for the entire city.

Local No. 88, Leather-workers—Endeavored to bring about an eight-hour workday with an increase in wages, but were unsuccessful.

Granite-cutters, Granite, Md.—Have had their wages increased twenty cents per day.

Carriage and Wagon Workers Union, No. 83—Have disbanded.

Local No. 37, Hoisting and Portable Engineers—1910 has been a very busy year, and the outlook for 1911 is equally as good.

Table A gives the names of the presidents, the names and addresses of the secretaries of the eighty-four local unions reporting, the minimum union rate of wages and the number of hours of labor required per day, the place and day of meeting.

TABLE A.

The Baltimore Federation of Labor is composed of Delegates representing the various Local Unions. Its Officers are: Edwin Hirsch, President; George M. Henderson, Secretary. Meets every Wednesday night at Building Trades Hall, 500 E. Fayette Street.

PRICES AND COST OF LIVING

No subject connected with industrial life has caused greater controversy or is a more prolific source for future investigation than that of *prices and cost of living*.

From a special investigation made by the Department of Agriculture for the year 1909, the reasons for the increased retail prices of meat over the wholesale prices are given.

With over two-fifths of the expenditures of the families of medium income devoted to food, one-third of which is composed of meat, the present situation is felt by the incomes of 19,000,000 families. Inquiries were made through the employes of the Bureau of Animal Industry in 50 cities, large, medium and small, in all parts of the country, and from schedules provided to record the actual experience of retailers in buying and selling beef, it was found that the retail prices of beef were much higher in the smaller towns than in the larger cities. A gross profit of 20 per cent. was found in New York and Philadelphia, 28 in Buffalo, 36 in Boston, 7 in Baltimore, 42 in Washington, D. C.; 21 in Richmond, Va., and 61 in Augusta, Ga.

For the 50 cities throughout the United States from which reports were received the mean gross profit of selling beef, that is, the total retail cost charged to consumers above the wholesale cost paid by the retailers, is 38 per cent.

In 5 cities the rate of increase is 20 per cent. or under; in 10 cities 21 to 30 per cent.; in 12 cities 31 to 40 per cent.; in 12 cities 41 to 50 per cent., and in 11 cities over 50 per cent.

The high price of corn has had its effect on the price of pork, in addition to the great reduction of marketing of hogs.

Rising prices of beef and pork have strengthened the demand for mutton.

The meat market may be summarized as follows: First, the production of cattle has been diminished by range abandonment and high land value; second, new demand for corn on farms for meat production; third, high price of corn; fourth, the production of hogs was reduced in 1907; fifth, for 75 years the production of meat has declined relative to population; sixth, meat reports increased until 1906, after which they sharply declined; seventh, there has been a decreasing meat consumption per capita and an increased consumption of cereals, vegetables, fruits and saccharine.

According to the live stock census of 1840, it was possible to furnish an average of .88 of an animal on a farm to each inhabitant of the country at that period. This percentage declined to .81 of an animal in 1860, and the census of 1900 indicates the possibility of furnishing but .69 of an animal to each inhabitant.

The ratio of swine on the farm in 1840 in relation to population was 1.54. In 1900 it was but .83 of an animal.

The great drift of population toward the cities has relatively decreased the number of those who produced the commodities of the farm, and is also attributed as one of the causes.

The simple forms of life in almost every part of our country are being abandoned and former customs, whereby every family made itself more or less self-sustaining, exist to a small extent.

In 1860, 44.8 per cent. of the population of the Union were agriculturists. In 1880 there were about 35 per cent., while at the present time the non-producers of food outnumber the producers three to one.

These conditions are due largely to the developments of the manufacturing interests of the country, the attractions of city life and immigration.

The farmer has benefited more than others from the changed conditions which have manifested themselves in increased cost of living. For instance, the product of one acre of corn in 1899 was worth on the farm \$8.51, but ten years later it was worth \$15.20, an increase in farm value amounting to 78.6 per cent. Similarly, wheat increased 114 per cent., tobacco 56.2 and cotton 65.6 per cent. Ten leading crops, taken together, including, besides those mentioned, oats, barley rye buckwheat potatoes and hay, increased 72.7 per cent. in farm value. This, of course, is of less advantage to the farmer if the increase in price of things he has to buy is still greater. To ascertain the facts in this matter, the Federal Bureau of Statistics sent a letter to a large number of retail dealers doing business with farmers. These dealers were asked to quote the prices which prevailed in 1899 and in 1909, taking care to compare articles of the same grades. In this way the percentage of increase in the prices of about 85 articles commonly used by farmers was determined. For all the articles considered the average increase was 12.1 per cent. Now compare this with the 72.7 per cent. increase in the farm value of the ten leading crops and it will be seen that the farmer has evidently benefited more than the rest of the community from the changes in values.

Table No. 1, which follows, gives the average prices by months taken during the year in the Lexington Market by one of our daily papers of the principal articles of food that go to supply the table of the average home. Of the 104 articles quoted 63 show an increase over 1909, 37 show a slight decrease and 4 remain the same.

Table No. 2 shows the average prices ascertained from 277 grocery stores in all sections of the city of Baltimore of a medium quality of food products. Of the 36 different articles quoted 20 show an increase over 1909, 14 show a decrease and the prices of 2 remain the same. While these prices were obtained by different methods, both of these tables show a slight increase over 1909.

Table No. 3 shows the number of hours worked, the average earnings per day, the number of days employed during the year and the average yearly earnings of 1,381 persons employed in 32 different occupations. Of these 32 different occupations 23 show an increase in earnings over 1909 and 9 show a decrease, which seems to keep pace with the increase in prices of those articles quoted in Tables Nos. 1 and 2 during the same period.

Table No. 4, as shown by the latest report of the Department of Commerce and Labor, the average wages and hours of labor are given for the years of 1906 and 1907 in six of the leading cities, including Baltimore, of 18 of the principal occupations.

TABLE No. 3.

HOURS WORKED, EARNINGS PER DAY, NUMBER OF DAYS WORKED IN YEAR, AND AVERAGE YEARLY EARNINGS OF PERSONS ENGAGED IN CERTAIN OCCUPATIONS.

OCCUPATIONS	1910			1909
	Average Hours Worked Per Day	Average Earnings Per Day	Number of Days Worked in Year	Average Yearly Earnings

Acres Production and Value of Crops and Farm Animals

The total value of the farm products for the year 1909 in the United States, as shown by the Department of Agriculture, reached the enormous sum of \$8,760,000,000, making it the most prosperous of all previous years in agriculture, and only exceeded by the figures of 1910, which amounted to \$8,926,000,000. These figures have nearly doubled in the past ten years. They have paid off mortgages, established banks, made better homes, helped to make the farmer a citizen of the world, provided better education for his children, and furnished him with means of improving his soil and making it more productive. These conditions, with the building of State roads, are promoting the charms of rural life and should have a tendency to keep the young men on the farm.

The value of the corn crop in 1909, which is given first place, is the highest of record, and reached the astonishing figures of about \$1,720,000,000, or \$220,000,000 more than 1910, and nearly equal to the value of the clothing and personal adornment of 76,000,000 people, according to the census of 1900, and equal in value to the gold and silver coin and bullion of the United States. It exceeds the average of five preceding years by 36 per cent., while the farm price per bushel is greater by 32 per cent.

"Cotton is no longer King," but is easily the second crop in value, and for the year 1909 was the most valuable to the farmer that had been produced. The price of cotton lint at the farm for that year was 13.7 cents, and cotton seed selling for about \$25 per ton, making the crop worth about \$850,000,000 to the farmer, while in 1910 it reached \$900,000,000 in value.

Third in value among the crops is wheat, worth about \$725,000,000 at the farm in 1909, and also exceeds the average price of the past five years by 34.6 per cent., while in 1910 the estimated value is only \$625,000,000.

Hay is the fourth crop in value, with a total of 64,000,000 tons, worth \$665,000,000 in 1909, an increase of 2.6 per cent. above the average of the five preceding years, while the value for 1910 crop is \$720,000,000.

The fifth crop in order of value is oats, with its 984,000,000 bushels in 1909, worth at the farm \$400,000,000, and is greater than the five years' average by 28 per cent., and exceeds 1910 in value by \$20,000,000.

The year's crop of potatoes for 1909 has never been equaled, amounting to 367,000,000 bushels, and worth about \$212,000,000, or 25 per cent. above the five years' average, and exceeded 1910 by 38,213,000 bushels.

The tobacco crop of 1909 was the largest ever raised up to that time, amounting to about 900,000,000 pounds, or one-third greater than the average of five years, and valued at nearly \$100,000,000, while 1910 produced 967,150,000 pounds, valued at \$95,000,000.

The entire sugar crop amounted to about 864,000 tons in 1909 (refined beet sugar and raw cane sugar), and the value of all sugar, molasses and syrup reached about \$95,000,000, while in 1910 it is valued at \$97,000,000.

In 1909, 165,000,000 bushels of barley were produced, valued at nearly \$88,000,000, which exceeds that of 1910.

The production of flaxseed seems to be declining, as the crop of 1909 is estimated to be worth only \$36,000,000, while that of 1910 is far below this amount, on account of a severe drought.

The estimate of rough rice produced in 1909 is 1,000,000,000 pounds, or 21 per cent. above the five years' average, and the same number of pounds is given for 1910.

In 1909, 31,000,000 bushels of rye were produced, valued at \$23,000,000, while 1910 produced 32,088,000 bushels, valued at the same amount, viz., \$23,000,000.

The total of all cereals for 1909 is 4,711,000,000 bushels, which has never been equaled in any one year, and valued at \$3,000,000,000, or 34 per cent. above the average of the previous five years, and exceeding 1910 by \$230,000,000.

There were substantial gains in value of dairy and poultry products and of animals sold and slaughtered in 1909 over previous years. The price of butter has not been so high in many years, and the same is true for eggs and dressed poultry, and except for the higher prices of 1908 is also true of milk.

In the grand total the farm products of 1909 are greater in value than those of 1908 by \$869,000,000, while those of 1910 exceed 1909 by \$305,000,000.

FARM ANIMALS.

Among the farm animals horses have exceeded all other kinds in relative increase in value, in spite of the prediction that when electricity as a motive power and the use of automobiles as a means of conveyance became more popular the era of the horse would decline.

The statistics of the Agricultural Department of the Federal Government indicate that the number of horses in the United States in 1900 was nearly 14,000,000. This number had been increased by January, 1909, to over 20,000,000. In 1900 the value of horseflesh was \$603,969,000. In 1909 this value was given as \$1,974,052,000, and in 1910 as \$2,276,363,000 for 21,040,000 horses.

The total value of all animals in the United States on January 1, 1910, was estimated at \$5,138,486,000, as compared with \$4,525,259,000 on January 1, 1909, an increase of \$613,227,000, or 13.6 per cent.

The following table shows the acreage production, value of farm products and average value per acre of the

principal Maryland crops for the year ended January 1, 1910. Of the nine products given, wheat leads in point of acreage, with corn second, while tobacco leads in the average farm value per acre, with potatoes second, having reversed their positions since last year, when there was an unusual large potato crop. The total farm value of corn produced in the State during 1909 was \$14,287,000, which exceeds that of wheat by about \$2,000,000.

The value of the hay crop for the year was \$5,126,000, potatoes \$1,848,000 and tobacco \$1,473,250.

ACREAGE PRODUCTION AND VALUE OF FARM PRODUCTS
IN MARYLAND, JANUARY 1, 1910.

PRODUCTS	Acreage	Production	Farm Value	Average Farm Value Per Acre

MARYLAND WOOL OF MEDIUM QUALITY.

The number of sheep of shearing age April 1, 1910, was 130,000; average weight of fleece per head, 5 2-10 pounds; wool, washed and unwashed, 676,000 pounds; per cent. of shrinkage, 43; wool scoured, 385,320 pounds; total value, \$173,394; average value of scoured wool per pound October 1, 1910, was 45 cents, as compared with 55 cents in 1909.

CURRENT PRICES OF GRAIN

The following table, furnished by Secretary-Treasurer James B. Hessong, of the Chamber of Commerce, gives the current prices of grain in Baltimore by months during the year 1910, and also the average prices for the year.

There was quite a falling off in the average prices of grain of all grades in 1910 from 1909; in fact, the prices were lower than in 1908 for corn, oats and rye, while the average prices for wheat for 1910 were somewhat better than in 1908.

CANNING INDUSTRIES

From a report furnished by Mr. Frank E. Gorrell, Secretary of the National Cannery Association, Maryland stands first in the canning of tomatoes, fifth in corn and fifth in peas. There was a falling off in the tomato pack last year and also in 1908, and the same applies to peas, while there was a decided increase in the pack of corn, being 42.6 per cent. increase over 1909 and 32.6 per cent. increase over the pack of 1908.

As will be seen from the following tables, Maryland packed 45.7 per cent. of the entire tomato pack in 1910; 9.3 per cent. of the corn, and 5 per cent. of the peas.

IMPORTS AND EXPORTS

From the following tables furnished by the Collector of the Port, a comparative statement is made of the principal commodities imported and exported at the Port of Baltimore during the calendar years 1909 and 1910. There was an increase of imports for the year 1910 over 1909 of \$1,910,384, or 10.6 per cent., and a decrease in exports of \$9,101,911, or 11.5 per cent. for the same period. In fact, the amount of exports was less in 1910 than for any of the previous 12 years.

The total value of free merchandise entering our port in 1909 was \$12,850,069, and the value of the dutiable merchandise was \$14,568,498, making the total value of imports \$27,418,567.

The value of free merchandise entering our port in 1910 was \$14,810,484, and dutiable merchandise \$17,518,467, making the total value of imports for that year \$32,328,951, or an increase over 1909 of \$4,910,384. The greatest value of any one article imported on the free list was copper, which amounted to \$2,514,670; next in value was nitrate of soda, amounting to \$1,684,813; bananas, \$1,303,500; muriate of potash, \$1,258,034, the rest of the articles being less than \$1,000,000 in value.

Of the dutiable articles, iron ore comes first, which is valued at \$3,442,959; pig iron, \$2,495,866; cork, \$1,519,881; decorated china, \$1,347,774; toys, \$1,279,524, the rest of the articles amounting to less than \$1,000,000 in value.

The value of exports in 1909 was \$79,424,914, and in 1910 \$71,825,007, showing a decrease in 1910 from 1909 of \$7,599,907.

The greatest value of any one article exported was copper, valued at \$21,063,175; tobacco leaf, \$7,532,277;

cotton, \$4,708,318; lard, \$4,653,233; corn, \$4,621,185; flour, \$3,667,791; agricultural implements, \$2,797,691; wheat, \$2,763,125; steel rails, \$2,026,186; oil cake and meal, \$2,012,826; bituminous coal, \$1,203,638, and lumber, \$1,095,002, the balance of the articles amounting to less than \$1,000,000.

UNION STOCK YARD'S REPORT

The following table shows the receipts and exports of live stock at the Union Stock Yards, Baltimore, for the year ending December 31, 1910.

The number of cars received during the year was 13,072, containing 141,710 cattle, 401,865 sheep, 603,328 hogs, 28,369 calves, 2,486 horses and 833 mules.

The exports amounted to 408 cars, containing 7,404 cattle. The month in which the largest number of cattle, etc., was received was October, with September, August, November, December, July, January, June, February, May, March and April next in the order named, and the greatest number of cattle was shipped during the months of December and February, with August, November, September, October, March, June, July and January in the order named.

STATE MINE INSPECTION

From the Report of Mr. John H. Donahue, Mine
Inspector for Allegany and Garrett Counties,
for the Fiscal Year Ending April 30, 1910.

The total number of men employed in and about the mines during the year was 5,696, a decrease of 300 men, compared with the previous year. This decrease is confined strictly to Allegany County, Garrett County showing an increase of 7 men over the previous year.

The total production of coal mined during the year in Maryland, which is confined to Allegany and Garrett Counties, was 4,039,386 long tons, or 4,524,112 short tons, an average of 794 tons per man employed. Of this amount 3,937,115 net tons were mined in Allegany and 586,976 tons in Garrett, being an increase in production of 357,669 short tons over last year.

During the year there were 93 coal and clay mines in operation which came under the provisions of the Mining Law, and 13 local or fuel mines employed less than 10 men.

The report states that the general condition, with a very few exceptions, of all the mines is good.

The total number of accidents for the year was 94, 19 being fatal and 75 non-fatal. This is an increase of 7 fatal and a decrease of 3 non-fatal accidents, compared with the preceding year; 17 of the fatal accidents occurred in coal mines, 1 by attempting to get on a tram-road engine and 1 by being struck by a piece of timber thrown from a train. From the number of tons mined it is figured that 255,349 short tons of coal were mined for each life lost and that the fatal accidents were about .03 per cent. of the number employed.

MINERAL PRODUCTS

The value of the annual output of mineral products of the State, as given by the Geological Survey, from the year 1896 to 1909, inclusive, is shown by the following table:

VALUE OF THE ANNUAL OUTPUT OF MINERAL PRODUCTS
1896-1909.

YEAR	Coal	Stone	Flint and Feldspar	Sand and Gravel	Lime and Cement
1896	\$3,299,928	\$457,764	\$365,477

STATE FINANCES

As shown by the report of Mr. William B. Clagett, Comptroller of the Treasury of Maryland, for the fiscal year ended September 30, 1910, there was an increase in both the receipts and expenditures of the State Treasury over the preceding year, and is as follows:

Cash balance on hand, September 30, 1909.....	\$1,328,069.66
Receipts for the year ended September 30, 1910.....	5,875,598.65
	<hr/>
Total	\$7,203,668.31
Disbursements, 1909-1910.....	6,328,557.15
	<hr/>
Balance, September 30, 1910.....	\$ 875,111.16

Of the increase of \$475,493.96 in receipts over 1909, \$247,040.60 was from high liquor license, \$136,074.00 from State Roads loans, \$47,735.87 from tax on gross receipts of corporations and \$36,904.60 from tax on collateral inheritance. Of the \$247,040.60 increase received from the liquor license, three-fourths, or \$185,280.45, goes to Baltimore City.

The total revenue received by the State under the operation of a \$1,000 liquor license was \$1,526,797.28, of which \$1,144,820.63 was paid to the city of Baltimore and \$381,976.65 was retained by the State.

The expense of the State during the year amounted to \$6,328,557.15, which exceeds any previous year, leaving the cash balance on hand, September 30, 1910, of \$875,111.16, which is \$452,958.50 less than the balance, September 30, 1909.

The funded or gross debt of the State, as of September 30, 1910, amounted to \$7,529,926.13, an increase of \$811.000. This increase is incurred by reason of the issue of new bonds, known as the State Roads Loan. Against this gross debt is a credit of \$6,308,949.72. In this credit there is \$4,721,479.72 invested in stocks and bonds of the very highest class, and \$1,500,000 is the listed price of additional securities, which are far below their intrinsic worth. In other words, the securities held by the State, if sold at the present market value, would nearly or entirely extinguish the gross debt of the State.

IMMIGRATION

The number of immigrant aliens entering our ports from year to year seems to be a pretty good indication of the prosperity of the country for those years, as is illustrated by the large number who came over in 1907, when the entire country enjoyed prosperity, and the decided falling off in 1908, which was known as a year of idleness among the laboring classes. The reason for this fact is that the conditions are communicated to those in foreign countries by their relatives and friends on this side of the water, and frequently the means with which to pay their passage is also sent. During the year 1907, 66,714 immigrant aliens were admitted at the Port of Baltimore; 8,472 in 1908; 25,140 in 1909; 33,214 in 1910. Thus showing that with the return of prosperity in this country comes an increase in immigration. Of the 33,214 immigrants admitted during the year 1910, 24,185, or about 73 per cent., were males and 9,029, or about 27 per cent., were females, as compared with 71 per cent. males and 29 per cent. females in 1909.

In 1910, 4,206, or about 12 per cent., were under 14 years of age; 1,609, or about 5 per cent., were over 45 years of age, and 27,339, or about 82 per cent., were between 14 and 45 years of age.

The total amount of money shown by immigrants upon entering the Port of Baltimore in 1910 was \$720,636, an average of \$21.70 to each person, while the average in 1909 was \$16.73. The number who brought \$50 and over was 1,572, and those bringing less than \$50 were 24,081. Of the total number landed 4,002, or 12 per cent., had been in this country before, and the same applied to 15½ per cent. in 1909.

Of the 29,008 who were over 14 years of age 9,907, or about 34 per cent., were illiterate, as compared to 33 1-3 per cent. in 1909.

Of the 33,214 immigrants who entered our port in 1910 European countries furnished 33,156, or 99.8 per cent.; Asia 5 and other countries 53. Of the 33,156 who came from the European countries the Russian Empire furnished 16,004, or nearly one-half; Austria, 6,759; Hungary 6,423; German Empire, 2,125; Bulgaria, Servia and Montenegro, 1,116; Turkey in Europe, 478; Roumania, 170; Switzerland, 43; United Kingdom, 20; Norway, 8; Netherlands, 3; Belgium, 2; France, including Corsica, 2; Italy, 1; Portugal, 1, and Sweden, 1. Of the 58 that were furnished by other countries 46 came from the West Indies.

Out of the 3,214 who entered our port during the year only 2,610, or less than 8 per cent., gave Maryland as their destination, as compared with 10 $\frac{1}{4}$ per cent. in 1909.

PRISON LABOR

The question of convict labor has occupied the minds of those engaged in social and labor circles for years, and the serious problem of what are the best methods to pursue in the employment of convicts without coming in conflict with free labor still confronts them.

The same conditions do not apply to all localities alike, but it is a consensus of opinion that they should be employed, as idleness in prison, which has been termed a "hospital for the morally sick," breathes insanity and disease.

During the year this Bureau was called upon to make a report on the Maryland Penitentiary, and the following are the questions asked, with the answers given:

1. Q. Official name of institution?
A. Maryland Penitentiary.
2. Q. Number of buildings—*a*, industrial; *b*, non-industrial?
A. *a*, four; *b*, four.
3. Q. Acres of ground covered?
A. Six.
4. Q. Total value of prison property (including land and buildings) ?
A. \$2,000,000.00.
5. Q. Total value of industrial buildings—*a*, owned and used by State; *b*, owned and used by contractors or lessees; *c*, owned by State and used by contractors or lessees?
A. *a*, none used by State; *b*, none owned by contractors or lessees; *c*, \$100,000.00.
6. Q. Value of land used for industrial purposes—*a*, by State; *b*, by contractors or lessees.

- A. *a*, none used, except that which is covered by buildings; *b*, same.
7. Q. Average annual receipts for last five years—
a, total; *b*, from public funds; *c*, from contractors or lessees; *d*, from other sources?
- A. *a*, \$150,257.07 3-5; *b*, none; *c*, \$149,694.74 3-5; *d*, \$562.33.
8. Q. Average annual refunds to public treasury for last five years?
- A. Average annual surplus earnings paid into State treasury for last five years, \$40,364.80 2-5.
9. Q. Average net cost to the community for last five years?
- A. None.
10. Q. Salaries for last report year—*a*, total; *b*, industrial employes; *c*, non-industrial employes; *d*, chaplain; *e*, instructors?
- A. *a*, \$59,140.05; *b*, none; *c*, same as *a*; *d*, \$1,400.00; *e*, none.
11. Q. Average annual outlay for educational purposes—
—*a*, books; *b*, lecture entertainments, etc.?
- A. *a*, about \$500; *b*, none.
12. Q. Daily average population for last five years—
a, total; *b*, employed by State (in any capacity); *c*, employed by contractors or lessees; *d*, sick, or otherwise incapacitated?
- A. *a*, 999 7-12; *b*, 57 2-12; *c*, 942 5-12; *d*, all prisoners are assigned either to State or contract work.
13. Q. Average age of inmates?
- A. 29 years.
14. Q. Average duration of sentence?
- A. $5\frac{3}{4}$ years.
15. Q. Per capita cost of food per day?
- A. 7 2-3 cents.
16. Q. Per capita cost of clothing per annum?
- A. \$4.37.

17. Q. Total earnings of inmates (by overtime work)
—*a*, employed by State; *b*, employed by contractors or lessees.

A. *a*, none; *b*, \$175,695.90.

After a careful examination of the institution, nothing was found to criticise, but, on the other hand, great commendation was found to be due to its present warden, Mr. Wyler, for his humane treatment of the prisoners. At the same time they were subject to all proper discipline.

The permission of prisoners to make money by overtime work, after their allotted task had been accomplished (which constitutes seventy-five per cent. of the daily task set for free labor), is to be highly commended, as it not only enables these prisoners to save considerable money each year, but it stimulates personal endeavor, and should be encouraged.

All contracts for prison labor are made direct with the Board of Directors of the Maryland Penitentiary, and the rates paid for each are from twenty to sixty cents per day.

One large Baltimore shirt manufactory, which has had a contract for seven or eight years, employs 495 males and 69 females at 50 cents per day, and is under a \$25,000 bond for the faithful compliance with the terms of their contract. In this department 700 dozen shirts are turned out a day, and the convicts make from \$12 to \$20 a month above task work for themselves.

This firm claims that during the depression in business they never worked convicts full time to the exclusion of free labor, and during the year they have taken on 1,050 additional hands at their three factories, and were spending \$50 to \$75 per week advertising for help, and could have found employment for 400 additional hands.

A hollow-ware concern employs 226 men in their foundry at 60 cents per day, where 3,800 castings are

turned out daily, and the prisoners make from \$6 to \$7 a month above their task work. The proprietors of this concern claim they do not compete with free labor in this State, as there is no hollow-ware made anywhere else in the State, and the same statement was made by a large boot and shoe manufacturer, who has a contract for 239 men at 50 cents per day in the manufacturing of shoes. Every shoe made passes through 93 hands, and they claim the kind of shoes made by them is not made anywhere else in the State. Another out-of-town shirt manufacturer has a contract price of 30 cents per day after the third day (the first three days they receive no pay), and employs 65 males and 5 females.

The Maryland Veneer and Basket Company has a contract at 25 cents per day after the third day, and employ 160 males and 13 females. The prison gets all refuse from the factory, which is used for fuel. Another manufacturer of baskets has a contract for 20 cents per day after the third day, and employs 46 females (colored). All prisoners work task system, and all overtime goes to their credit at the same rates.

From the annual report made by the Directors of the Maryland Penitentiary for the year ended November 30, 1910, it is set forth that the receipts of the institution were \$159,469.06, and the disbursements \$124,317.22, leaving a balance or surplus of \$35,151.84. In addition to this, the 1,000 prisoners made for themselves by overtime work \$41,928.42, an average of \$41.93 for each person confined.

The contributions made to the public treasury, under its present management, during the preceding 20 years amounted to \$522,251.02, while the earnings of the convicts above their task work during the past 23 years has reached in the aggregate a sum practically the equivalent, or \$517,125.43. This is a most remarkable showing of reasonable demand of the State, on the one hand, and justice to the unfortunate prisoners, on the other, and is

a record that any State should be proud of. The sanitary conditions are most excellent, with ample light and ventilation, and running water and closets in every cell. The physical condition and general health of the inmates is very good.

The report shows that there were 1,097 persons in the institution at the close of the year, of which 371 were white men, 7 white women, 652 colored men and 67 colored women. During the year 328 prisoners were admitted and 393 discharged.

CENSUS OF BUILDINGS IN BALTIMORE CITY

In 1904, before the great fire, which destroyed so many buildings in the city of Baltimore, through the courtesy of the Police Commissioners, a census of buildings was taken by the police, under the direction of this Bureau, and it was found that there were 107,816 buildings of all descriptions within its borders. Another census was taken during the month of July, 1907, in the same way, when it was found there were 114,168 buildings of all kinds within the city limits, and the census taken by the Police Department during the month of August, 1910, gives the number of buildings of all kinds to be 118,523.

From the United States census of population of April, 1910, Baltimore City offers a building to every 4.7 persons living therein, demonstrating the fact that it is a city of homes.

Of the total number of 118,523 buildings 112,865 were shown to be occupied and 5,658, or 4.8 per cent., were vacant.

They were divided as follows: Ninety-five thousand and thirty-one dwellings, of which 90,814 were occupied and 4,217, or 4½ per cent., were vacant; 12,393 dwellings with stores, of which 11,795 were occupied and 598, or 4½ per cent., vacant; 1,954 stores strictly, of which 1,841 were occupied and 113, or nearly 6 per cent., were vacant; 5,155 private stables, of which 4,548 were occupied and 607, or nearly 12 per cent., were vacant; 1,492 factories, of which 1,445 were occupied and 47, or 3 per cent., vacant.

The greatest number of dwellings was found in the Northeastern District, with the Northwestern a close

second, and the Western, Southern, Northern and Eastern next in the order named. The greatest number of factories was found in the Central District, with the Western, Southern and Eastern following in the order named. Of the 70 banks 32 were located in the Central District.

The most striking comparison made between the figures of 1910 and 1907 is in the number of vacant buildings, 1910 showing 4.8 per cent. and 1907 only 2.3 per cent. Both enumerations were taken during the summer months, when there are more vacant houses than at any other season of the year.

This increase of about 100 per cent. in the number of vacant buildings in the city during the past three years is due largely to families migrating to the country, and largely to the great number of new dwellings and apartment houses erected. Attracted by rural life and cheap and desirable homes in good neighborhoods, in most every direction, many have moved beyond the city borders within the limits of a five-cent carefare and where the tax rate is about one-half.

These facts are borne out by the figures of the United States Census of 1910, which shows the population of Baltimore City to have increased but 10 per cent. during the past ten years, while that of the county has increased 25 per cent. during the same time.

The following tables show the number and character of buildings in Baltimore City by police districts:

Thirteenth Decennial Census

The taking of the census of population of the several States included within the Union at intervals of ten years is required by Section 2 of the first Article of the Constitution of the United States.

The first decennial census of the population of the United States was ordered by Congress March 1, 1790. In that year the population was 3,394,563. The work of enumerating and supervision was placed in direct charge of the Secretary of State, which arrangement continued until 1850, when the work was assigned to the Department of the Interior. The total cost of the first census amounted to \$44,377, and the estimated cost of the thirteenth census is \$14,000,000, making it the greatest piece of work, short of actual war or the digging of the Panama Canal, that the United States Government undertakes.

The problem involved the counting of nearly 92,000,000 people, with the aid of 330 supervisors and 65,000 enumerators, in 30 days, besides the enumeration of the products of nearly 7,000,000 farms and more than 250,000 manufacturing establishments, the whole to be tabulated in two years, with the aid of various mechanical appliances and about 4,000 clerks. The date of enumeration of the census for the first four census years was August 1. Since 1830 the date has been as of June 1, and in 1910 the time was changed to April 15, this being necessary because of the great change which has taken place in the habits of the American people, who migrate from their winter residences early in the summer to a country home or summer resort, and by the first day of June whole blocks of houses are boarded up.

The most prolific source of increase in population has been immigration, which is steadily on the increase. In 1820 the number of immigrants was 8,385, in 1840 there were 84,066, and in 1909 751,786 entered our port. The difficulties connected with the enumeration of the people are increasing, an idea of which can be formed from the statement that in several wards of the City of Boston it is necessary to employ no less than nine interpreters.

It is a regrettable fact that the United States is farther behind in the collection of the very important item of vital statistics than any other nation that claims to be in the same grade of civilization. Only fifteen of the forty-six States of the Federal Union maintain a system of registration of births and deaths so effectively enforced as to make it worth while for the census office to compile its statistics. It is an interesting fact that the vital statistics of Japan are generally regarded as the most accurate that are anywhere compiled.

The general results of the United States Census of Manufactures, in the State of Maryland and the City of Baltimore, for the year 1909, as furnished by the United States Census Bureau, are contained in three summaries. Two are comparative in character and present the differences between 1904 and 1909 for the State and city separately. The third concerns steam laundries, which are not incorporated in either of the other tables, for the reason that the census of 1909 was the first to include this industry in the factory class. Notice is given that the totals are only preliminary and are subject to necessary corrections growing out of a further examination of the schedules containing the statistics.

Only establishments conducted under the factory system were included in the census. Those distinguished as neighborhood, hand, and building industries, and small establishments having an annual product of less than \$500 were excluded. The rule did not, however, apply to

establishments idle during a portion of the year 1909, or to new concerns started during that time. The term, "establishments," as a unit of enumeration for the census, is deemed to be one or more factories, mills, or plants, owned or controlled by one individual, partnership, corporation, or other owner, located in the same town or city, and for which one set of books of account is kept.

It was required, whenever possible, that the report for any establishment should cover the period of twelve months ending December 31, 1909, whether it was in active operation during the whole of such time or not. When the business year of an establishment did not correspond to the calendar year, the data were secured for such completed business year as corresponded most nearly to the calendar year 1909.

BALTIMORE'S PERCENTAGES OF INCREASE.

The summary for Baltimore shows that the highest percentage of increase, 37.7, was in the number of salaried officials and clerks; in the cost of materials used, 32.7; in salaries and wages, 27.6; in value of products, 24; in the number of establishments, 15.7; in miscellaneous expenses, 14.4; in value added by manufacture, 14; in capital invested, 11.1, and the lowest, 9.6, in the average number of wage-earners employed during the year.

The number of establishments in 1909 was 2,502, as compared with 2,163 in 1904, a gain of 339, or 15.7 per cent.

The capital invested in 1909 was \$165,293,000, a gain of \$16,529,000, or 11.1 per cent., over \$148,764,000 in 1904. In this connection it should be remembered that the purpose of the census inquiry as to capital invested was to determine the value of property employed by an establishment for the purpose of productive operation, but not including rented property. Therefore, both capital owned by the operator and borrowed by him was included in the report, and no deduction was made from

the value of the assets on account of liabilities for money due others.

The average capital invested by the 2,502 establishments in 1909 was, approximately, \$66,000, as compared with about \$69,000 for each of the 2,163 concerns in 1904.

The reported value of the products in 1909 was \$187,908,000, as against \$151,547,000 in 1904, an increase of \$36,361,000, or 24 per cent.

The value in 1909 formed about 59 per cent. of \$317,570,000, which was the total reported for the State, as compared with about 62 per cent. of the State total, \$243,376,000, in 1904.

The product of any establishment is defined by the Census Bureau as the finished product in the condition in which it is prepared for sale. The census inquiry called also for the value of the products made during the year and not for the value of the sales. The value ascertained, was, therefore, not the cost of manufacturing them, but it was the selling value or price at the factory or works, which includes the profit of the manufacturer. Freight charges and discounts from the gross selling prices are also not included in the figures.

The average value of products per establishment in 1909 was about \$75,000, while in 1904 it was, approximately, \$70,000.

LARGE INCREASES IN COST OF MATERIALS USED.

The cost of materials used in 1909 was reported as amounting to \$107,532,000, which was \$26,518,000, or 32.7 per cent., more than the \$81,014,000 reported for the same item in 1904. This increase was, as pointed out, the next largest in the list, the leading percentage, 37, occurring in the number of salaried officials and clerks. The returns under this head refer only to the cost of materials, mill supplies, and fuel used during the year, and not to the cost of those purchased in the same period of time.

In 1909 the value reported as added by manufacture, which is ascertained by deducting the cost of materials used from the value of products, was \$80,376,000, as compared with \$70,533,000 in 1904, an increase of \$9,843,000, or 14 per cent. The value added by manufacture in 1909 formed 42.8 per cent. of the sum reported as the value of products, as compared with a percentage of 46.5 in 1904.

The amount reported as paid in salaries and wages in 1909 was \$41,747,000, an increase of \$9,027,000, or 27.6 per cent., over \$32,720,000 in 1904. This increase was the third largest in amount, the greatest of all being, as previously stated, 37, in the number of salaried officials and clerks. In 1909 the 2,502 establishments averaged about \$16,700 each for salaries and wages, while in 1904 the average for the 2,163 concerns was about \$15,000.

The number of salaried officials and clerks reported in 1909 was 9,373, while in 1904 it was 6,806, the increase amounting to 2,567, or 37.7 per cent. There was an average number of 3.7 per establishment in 1909, as compared with 3.1 in 1904. The average number of wage-earners employed during the year 1909 was 71,470, as compared with 65,224 in 1904, an increase of 6,246, or 9.6 per cent. The date to which the 1909 averages refer was, generally, December 15, or the day nearest that date which was genuinely representative of the normal conditions with reference to the employment of labor.

THE SUMMARY FOR BALTIMORE.

The Baltimore table follows:

	CENSUS—		Per cent. of in- crease, 1904 to 1909
	1909	1904	
Number of establishments....	2,502	2,163	15.7
Capital.....	\$165,293,000	\$148,764,000	11.1
Cost of materials used.....	107,532,000	81,014,000	32.7
Salaries and wages.....	41,747,000	32,720,000	27.6
Miscellaneous expenses.....	20,841,000	18,225,000	14.4
Value of products.....	187,908,000	151,547,000	24.0
Value added by manufacture (products less cost of ma- terials).....	80,376,000	70,533,000	14.0
Number of salaried officials and clerks.....	9,373	6,806	37.7
Average number of wage- earners employed during the year.....	71,470	65,224	9.6

THE STATE'S STATISTICS.

The statistics for the State, which include the Baltimore City totals, show that the largest percentage of increase, 41, was in the number of salaried officials and clerks; the next, in the cost of materials used, 34; in value of products, 30.5; in salaries and wages, 30.5; in miscellaneous expenses, 30.1; in number of establishments, 25.3; in value added by manufacture, 24.9; in capital invested, 24.4, and the smallest, 13.5, in the average number of wage-earners employed during the year.

The reported value of the State's industrial products in 1909 was \$317,570,000, an increase of \$74,194,000, or 30.5 per cent. over the value, \$243,376,000, reported in 1904.

The average value of products per establishment in 1909 was about \$66,000, as against, approximately, \$63,000 in 1904.

The cost of materials used in 1909 is given as \$200,975,000, as compared with \$150,024,000 in 1904, an increase of \$50,951,000, or 34 per cent., the second largest increase noted in the State's returns.

The value added by manufacture in 1909 was \$116,595,000, while in 1904 it was \$93,352,000. The increase in 1909 amounted to \$23,243,000, or 24.9 per cent. The value added in 1909 equaled about 37 per cent. of the total reported value of product, while in 1904 it represented about 38 per cent.

The amount paid in salaries and wages in 1909 was reported as \$58,720,000, as against \$44,988,000 in 1904, an increase of \$13,732,000, or 30.5 per cent. In 1909 the total number of salaried officials, clerks and wage-earners was 119,060, as compared with 102,798 in 1904. In 1909 the number of salaried officials and clerks averaged 2.5 per establishment, while in 1904 the number was about 2.2 persons.

The capital invested in 1909 was reported as \$251,237,000, as compared with \$201,878,000 in 1904, an increase of \$49,359,000, or 24.4 per cent. In both 1909 and 1904 the average capital invested per establishment amounted to about \$52,000.

THE STATE'S TABLE OF STATISTICS.

The State summary follows:

	CENSUS—		Per cent. of in- crease, 1904 to 1909
	1909	1904	
Number of establishments....	44,827	3,852	25.3
Capital.....	\$251,237,000	\$201,878,000	24.4
Cost of materials used.....	200,975,000	150,024,000	34.0
Salaries and wages.....	58,720,000	44,988,000	30.5
Miscellaneous expenses.....	28,497,000	21,905,000	30.1
Value of products.....	317,570,000	243,376,000	30.5
Value added by manufacture (products less cost of ma- terials).....	116,595,000	93,352,000	24.9
Number of salaried officials and clerks.....	12,162	8,624	41.0
Average number of wage- earners employed during the year.....	106,898	94,174	13.5

^aExclusive of 115 small gristmills, with products valued at \$493,315, and 126 small saw-mills, with products valued at \$173,450, which are omitted for purposes of comparison.

An idea of the industrial conditions in the State area outside of Baltimore may be gained by deducting the totals in the Baltimore summary from the figures for similar particulars in the State table. In this way it is seen that, while the percentage of increase in 1909 in the number of establishments in the State, as a whole, was 25.3, and in Baltimore 15.7, the State, separated from the city, shows an increase amounting to 37.6 per cent.

In the matter of the value of industrial products reported in 1909, the State, as a whole, showed a percentage of increase amounting to 30.5, Baltimore, 24, and the State, separated from the city, about 41. On the other hand, Baltimore reported in 1909 about 59 per cent. of the total value of products for the State as a whole, as against approximately 62 per cent. in 1904.

STEAM LAUNDRIES IN MARYLAND.

The preliminary totals for the steam laundries in the State of Maryland in 1909 are as follows:

Number of establishments.....	41
Capital	\$643,458
Cost of materials used.....	155,695
Salaries and wages.....	466,569
Miscellaneous expenses	212,550
Value of products.....	993,766
Number of salaried officials and clerks.....	175
Average number of wage-earners employed during the year.....	1,278

Principal Manufactures in Baltimore by Industries

As will be seen from the following table of the principal manufactures in the City of Baltimore, the leading industries are clothing, copper, tin and sheet iron products, tobacco, slaughtering and meat packing, foundry and machine shop products, printing and publishing, cars and general shop construction and repairs by steam railroad companies, canning and preserving, bread and other bakery products, patent medicines and compounds and druggists' preparations, confectionery, lumber and timber products, straw hats, malt liquors, furniture and refrigerators, marble and stone work and distilled liquors.

The value of men's clothing, including shirts, amounted to \$36,269,000 for the year 1909, and if women's clothing, furs, men's furnishings, hats, caps, hosiery and knit goods are included, it will amount to \$45,239,000, or about 24 per cent. of the total value of products.

Table B gives the summary of the manufactures by counties and principal cities in the State for the year 1909, also the average number of wage-earners and value of products.

The total number of establishments in the State, including Baltimore City, is 5,109. Average number of wage-earners 108,567, and value of product \$317,844,942. This table includes the steam laundries, which is the first time this industry has been included in the factory class.

The value of product for Baltimore City is \$188,690,403, and Baltimore County \$76,325,551; with Allegany, Washington, Frederick, Anne Arundel, Cecil, Carroll, Wicomico, Harford and Dorchester next in the order named.

TABLE A.—PRINCIPAL MANUFACTURES IN BALTIMORE, BY INDUSTRIES, 1909.

INDUSTRY	Number of Establishments	Capital	SALARIED OFFICIALS, CLERKS, ETC.		WAGE-EARNERS			Miscellaneous Expenses	Cost of Materials Used	Value of Products

Manufactures by Counties

The following is a list of the manufactures of the State by counties, as furnished by the United States Census Bureau, giving the name, location or post-office address of those engaged in the various manufacturing industries, with the exception of a few, who objected to their names being used.

ALLEGANY COUNTY

MANUFACTURES

Number of establishments.....	169
Average number of wage-earners.....	4,191
Value of products.....	\$9,977,137

Name of Firms and Goods Made	Location or Post-Office
------------------------------	-------------------------

ARTIFICIAL AND BUILDING STONE—

Hercules Concrete Works.....	Cumberland
Miracle Pressed Stone Co.....	Cumberland
Queen City Cement Block Mfg. Co.....	Cumberland
Roeder, A. A., Co.....	Cumberland
Standard Block Co.....	Cumberland

BOXES (CIGAR)—

Houck Bros.....	Cumberland
-----------------	------------

BREAD AND OTHER BAKERY PRODUCTS—

Allegheny Steam Baking Co.....	Westernport
Ayers, W. L.....	Lonaconing
Blaul, Ferdinand.....	Cumberland
Chabot, Louis.....	Eckhart
Connor, Thos. J.....	Lonaconing
Davis, Elton F.....	Westernport
Fogle, Arthur B.....	Cumberland
Finkeldey, F. A.....	S. Cumberland
Gerwig, C. E.....	Frostburg
Nickel, H., & Co.....	Cumberland
Ort Brothers.....	Midland

Name of Firms and Goods Made**Location or Post-Office**

Pferdeort, C. M.....	Cumberland
Streett, John M., Co.....	Frostburg
Streett, John M.....	Cumberland
Wilson, H., & Son.....	Cumberland
Wittig, Wm. W.....	Frostburg

BRICK (COMMON AND ENAMELED)—

Mt. Savage Enameled Brick Works.....	Mt. Savage
Queen City Brick and Tile Co.....	Cumberland
The Cumberland Granite Brick Co.....	Cumberland

BARRELS—

Hiser Cooper Shop.....	Cumberland
------------------------	------------

BROOMS—

Mountain City Broom Factory.....	Cumberland
The Cumberland Broom Works.....	Cumberland

BUTTER AND CHEESE—

Tri-State Sanitary Milk Co.....	Cumberland
---------------------------------	------------

CANDY—

Crystal Candy Co.....	Westernport
-----------------------	-------------

CANVAS GLOVES—

Cumberland Glove Works.....	Cumberland
-----------------------------	------------

CARRIAGES AND WAGONS—

Bills, Frank, Wagon Shop.....	Lonaconing
Parker, W. T., Wagon Works.....	Cumberland

CIGARS—

Felker, Henry.....	Cumberland
Kuhn, Frank C., Estate.....	Cumberland
Pierce, John L., & Bro.....	S. Cumberland

FLOUR AND GIST MILL PRODUCTS—

Anchor Mills.....	Cumberland
Bowling Green Mill.....	Cumberland
Cumberland Milling Co.....	Cumberland
Cumberland Valley Mill.....	Cumberland
Mays Chopping Mill.....	Belle Grove
Spring Gap Mill.....	Spring Gap
Shaffer, The H. B.....	Frostburg
The Atlas Roller Mills.....	Cumberland
The Cumberland Cereal Co.....	Cumberland
Westernport Mills.....	Westernport

FURNITURE—

Cumberland Furniture Co.....	Cumberland
Flurshutz, H. F., & Son.....	Cumberland

GAS—

Cumberland Gas Light Co.....	Cumberland
Frostburg Illuminating and Mfg. Co.....	Frostburg

Name of Firms and Goods Made	Location or Post-Office
GLASS, BOTTLES, GLOBES, ETC.—	

Potomac Glass Co.....	End Mechanic Street, N. Cumberland
Potomac Glass Co.....
.....	Western Md. R. R. and Willis Creek, Cumberland
The Eastern Glass Co.....	Cumberland
The Wellington Glass Co.....	Cumberland

ICE—

Cumberland Ice Mfg. Co.....	Cumberland
Mayer Bros.....	Frostburg
The Lonaconing Ice Mfg. and Storage Co.....	Lonaconing

IRON AND STEEL—

Taylor, W. & G., Co.....	Cumberland
United States Rail Co.....	Cumberland

LAUNDRIES—

Crystal Laundry.....	Cumberland
Cumberland Laundry.....	Cumberland
The Peerless Family Laundry.....	Cumberland
The Frostburg Steam Laundry.....	Frostburg
Union Laundry.....	Cumberland

LEATHER (TANNED, CURRIED AND FINISHED)—

Central Leather Co.....	Cumberland
-------------------------	------------

LIME AND CEMENT—

The Cumberland Hyd. Cement and Mfg. Co.....	Cumberland
---	------------

LIQUORS (DISTILLED AND MALT)—

Braddock Distillery Co.....	Long
Frostburg Brewing Co.....	Frostburg
German Brewing Co.....	Cumberland
The Cumberland Brewing Co.....	Cumberland
Willsbrook Distillery Co.....	Ellerslie
Zink, Jno. H., Brewery.....	Cumberland

LUMBER AND TIMBER—

A. B. O'Neals Mill.....	Oldtown
Barney's Mill.....	Flintstone
Brinning, J. A., & Son.....	Little Orleans
Buchanan, H., Mill.....	Twiggstown
Buchanan, J. W.....	Ellerslie
Crawford's Saw Mill.....	Piney Grove
Emmerson, Wm.....	Moscow
George Bros. Saw Mill.....	Oldtown
Hansell & Ravenscroft.....	Vale Summit
Kulps Lumber Co.....	Oldtown
Llewellyn, L. R.....	Dawson
Meese, J. W.....	Barton
Mertins, F., & Sons.....	Gilpintown
Miller, J. Walter.....	Rawlings
Moore & Deneen.....	Rawlings
Myers Mill.....	Oldtown
McCullough Bros.....	Frostburg
Prieess Saw Mill.....	Belle Grove
Robinson Bros.....	Frostburg

Name of Firms and Goods Made	Location or Post-Office
Shank, Samuel.....	Little Orleans
Skelley Bros.....	Eckhart
Weaver & Garlock Lumber Co.....	Flintstone
Weber, Louis.....	Spring Gap
Welsh's Mill.....	Cumberland
West Masons Mill.....	Oldtown
W. C. White Lumber Co.....	Flintstone
Winters, E. S.....	Klondyke
Yonker, H. W.....	Rawlings
Zembower, F. J.....	Flintstone

LOCOMOTIVE, CAR AND REPAIR SHOPS—

Baltimore & Ohio R. R. Co.....	Cumberland
Cumberland & Pennsylvania R. R. Co.....	Eckhart
Cumberland & Pennsylvania R. R. Co.....	National
Cumberland & Pennsylvania R. R. Co.....	Westernport
Cumberland & Pennsylvania R. R. Co.....	Mt. Savage
George's Creek & Cumberland R. R. Co.....	Cumberland

MACHINE SHOP AND FOUNDRY PRODUCTS—

Cumberland Steel Co.....	Cumberland
Maryland Foundry Co.....	Cumberland
McKaig's Foundry.....	Cumberland
Piedmont Foundry and Machine Co.....	Luke
Potomac Engineering Co.....	Cumberland
Westernport Foundry.....	Westernport

MATTRESSES AND SPRINGS—

Cumberland Mattress Factory.....	Cumberland
----------------------------------	------------

MINERAL AND SODA WATERS—

Bender, A. R.....	Cumberland
Coco-Cola Bottling Works.....	Cumberland
Gooding, Edw. L.....	Cumberland
Hering & Carpenter.....	Cumberland
Hohing, Edw. F.....	Lonaconing
Krouse, Jno., & Co.....	Frostburg
Mason, E. W.....	Westernport
Wehner, Frederick.....	Frostburg

MONUMENTS AND CEMETERY SUPPLIES—

Williams, J. B., & Co.....	Frostburg
Williams, J. B., & Co.....	Cumberland

PLASTER AND PLASTERING SUPPLIES—

The Maryland Wood Fibre Plaster and Supply Co....	Cumberland
---	------------

POTTERY, FIRE BRICK AND PORCELAIN PRODUCTS—

Big Sewerage Fire Brick Co.....	Allegany
Ellerslie Pottery.....	Ellerslie
Mt. Savage Fire Brick Co.....	Frostburg
Union Mining Co.....	Mt. Savage

POWDER, SODA, ASH AND LIME BLEACHING—

West Virginia Pulp and Paper Co.....	Luke
--------------------------------------	------

Name of Firms and Goods Made	Location or Post-Office
PRINTING AND PUBLISHING—	
Clayton, Chas. T.....	Lonaconing
Cook & Rodda.....	Frostburg
Jenvey, Frank B.....	Cumberland
Lonaconing Star.....	Lonaconing
Mining Journal.....	Frostburg
Miller, J. J.....	Cumberland
Phillips, Frank B.....	Lonaconing
The American.....	Cumberland
The Enterprise Printing Co.....	Cumberland
The Evening Times.....	Cumberland
The Courier Publishing Co.....	Cumberland
The Daily News Co.....	Cumberland
The Hambright Printing Co.....	Cumberland
Union Printing Office.....	Cumberland
Zimmerly, J. M.....	Frostburg
PLANING MILL PRODUCTS—	
Baker Bros.....	Frostburg
Cumberland Lumber Co.....	Cumberland
De Vore, J. S.....	Ellerslie
Eastern Door and Sash Co.....	Cumberland
Jolenson, J., & Son.....	Frostburg
Knobley Planing Co.....	Cumberland
Lonaconing Construction Co.....	Lonaconing
Mertens, F., & Sons.....	Cumberland
South Cumberland Planing Mills.....	Cumberland
William T. Syler Planing Co.....	Luke
Watson's Planing Mill.....	Piney Grove
Willison Bros.....	Frostburg
Wise, S. W.....	Cumberland
SHEET-METAL WORK—	
Morehead, Wm., & Son.....	Cumberland
Prichard, E. B., & Co.....	Frostburg
Wolfe, Mrs. Frank E.....	Frostburg
SHIP-BUILDING (WOODEN)—	
The Canal Towage Co.....	Cumberland
SILK THREAD—	
Klots Throwing Co.....	Cumberland
Klots Throwing Co.....	Lonaconing
STREET RAILWAYS AND REPAIR SHOPS—	
Cumberland Electric Railway Co.....	Cumberland
Cumberland & Westernport Electric Railway Co.....	Clarysville
WOOD PULP AND PAPER—	
West Virginia Pulp and Paper Co.....	Luke
YEAST—	
Klosterman's Yeast Factory.....	Long

ANNE ARUNDEL COUNTY**MANUFACTURES**

Number of establishments.....	75

Twenty-Sixth Annual Convention of the International Association of Officials of Bureaus of Labor.

The Twenty-sixth Annual Convention of the International Association of Officials of Bureaus of Labor met at Hendersonville, N. C., in joint session with the International Association of Factory Inspectors in the County Court House, Tuesday, August 23, at 9 o'clock A. M.

The meeting was called to order by Hon. M. L. Shipman, Labor Commissioner of North Carolina, and Mr. Louis Guyon, of the Province of Quebec, was appointed temporary chairman.

An eloquent and warm address of welcome was delivered by Major S. E. Pickens, on behalf of the Mayor of Hendersonville, who, upon conclusion, presented the members of the two associations with the key to the city.

This address of welcome was appropriately responded to by Mr. W. W. Walling, of New York, on behalf of the Factory Inspectors, and Mr. W. L. A. Johnson, of Topeka, Kan., on behalf of the Labor Commissioners.

Mr. Johnson stated in part that "the association of which these two bodies are composed constitute an avenue of endeavor that perhaps is equaled nowhere else and under no other head in all the State departments of the country. The Association of Factory Inspectors and Commissioners of Statistics may be termed a body of inquirers trying to find out the how, why and wherefore of all things industrial, commercial, educational and social; in fact, all of those things that go to make up the scope of human progress. It is, therefore, with some feeling of pride that we meet to take up this work, each

of you exchanging ideas in conferences with a view of improving methods and rules of work. It is a matter of congratulation that our association represents about thirty-five bureaus in the United States and Canada in the carrying on of the factory inspection and statistical collections. It is also worthy of note that the State and national governments, in carrying on this work, are expending something like \$2,000,000 per annum, and the reports that are issued, pamphlets and communications of various kinds sent out for the purpose of elevating, benefiting and educating the public at large probably amount to four or five million copies. While we meet under such splendid auspices to enjoy the hospitality of your people, and at the same time counsel together, we are reminded that the work is not one altogether of pleasure. This great expenditure of money, time and effort must necessarily be justified or it would not be carried on.

"The Factory Inspectors have a work of saving lives, improving helpful conditions, reducing litigations in accidents and reducing liability to a minimum.

"Statistical research, among other things, must endeavor to shape the final results of investigation, that they may be a guide in future work in States, a guide to legislation, statesmen and our great men; to have confidence in the work of these departments, because relying upon them and their work for their information, we feel that there is a true merit in this work. In a word, these two associations represent in a certain sense and occupy in a certain degree the position of historians of human progress, of industrial, commercial, social, legislative, and, in fact, religious and various other avenues of human progress, and to that extent I feel that this meeting will prove one of the most profitable and beneficial we have had for many years."

The Committee of Arrangements reported that a joint session would be held at 8.30 P. M., for the purpose of discussing the following topics:

1. Accident laws and uniform statistics.
2. Child-labor laws and statistics in different States.
3. Factory inspection and statistical collection.

The Committee further suggested that a joint session be held in Columbia, S. C., on Friday morning, at which the following subjects would be discussed:

1. Value of an association embracing all statistical agencies.
2. The value of free employment bureaus.

The joint session adjourned to meet in special sessions.

The Commissioners' first session was called to order at 3 P. M. by Second Vice-President Edward W. Van Duyn, of Des Moines, Ia. Twenty members answered the roll call, representing thirteen different States. The Committees on Nomination, Places of Meeting and Resolutions were appointed.

The Secretary read several communications from absent members, expressing their regret at not being able to be present.

The next order of business was the roll call of States, whose representatives read their reports on current work.

The second session of the Labor Commissioners met at 11 o'clock A. M., Wednesday, August 24. The Secretary-Treasurer read his report of the financial condition of the Association, which showed a balance in the treasury of \$40.56.

The reading of the reports on current work of the different States was continued.

The following resolution was offered: "*Be it Resolved*, That it is the sense of this meeting that the two associations be merged, and that a committee of three be appointed to confer with a like committee of Factory Inspectors looking to the merger of the two associations into one, with an appropriate name, rules and by-laws for the government, and that the committee have full power to act and report at a later session of this associa-

tion, after which a joint session of the two associations may be held, if agreeable, for the final ratification of the said report and the election of officers."

A similar resolution was passed at the meeting of the Factory Inspectors.

A committee of three from each association was appointed and requested to report on the above resolutions at our next annual meeting.

The Committee on Nominations submitted the following candidates for office: President, Hon. J. D. Beck, of Wisconsin; First Vice-President, Hon. E. W. Van Duyn, of Iowa; Second Vice-President, Hon. M. L. Shipman, of North Carolina; Secretary-Treasurer, Hon. W. L. A. Johnson, of Kansas; Executive Committee, J. D. Beck, Wisconsin, Chairman; W. L. A. Johnson, Kansas; W. M. Maupin, Nebraska; C. H. Johnson, Michigan, and Charles J. Fox, Maryland. On motion, the report was adopted.

The Committee on Place of Meeting decided on the city of Lincoln, Neb., for the next place of meeting, the time to be fixed by the Executive Committees of the two associations later.

The two conventions left Hendersonville, Thursday, August 25, to assemble in Columbia, S. C., Friday, August 26, but, previous to meeting in Columbia, stopped in Greenville, S. C., on the 25th to inspect some of the largest cotton mills in the South and the labor conditions there.

The meeting finally adjourned at Columbia on Friday, August 26.

NEW INCORPORATIONS IN MARY- LAND IN 1910

Complete List of New Incorporations in Baltimore
City and the Counties, with Location and
Capital Stock, from January 1st, 1910,
to December 31st, 1910.

The number of new incorporations, as shown by the records in the city of Baltimore, during the year 1910 was 629, which includes 39 building and loan associations, with a total capital stock amounting to \$44,761,515.

The capitalization of the 590 new incorporations in 1910, not including building and loan associations, was \$10,278,515, and for the 39 building and loan associations \$34,483,000, as compared with 607 new incorporations in 1909, with \$8,955,522 in capital stock, and 29 building and loan associations, with \$6,465,000 in capital stock.

These figures show that the number of new incorporations in 1910 were 17 less than in 1909, which does not include the building and loan associations, while the capital stock was \$1,322,993 more, and that the number of building and loan associations increased 10 in number in 1910 over 1909 and \$28,018,000 in capital stock.

The number of new incorporations in the counties during 1910 was 239, with capital stock amounting to \$6,168,845, as compared with 193 in 1909, with \$6,098,170 in capital stock, showing an increase in 1910 over 1909 in new incorporations of 46 and an increase in capital stock of \$70,675.

The total number of new incorporations in the entire State, including building and loan associations in 1910, was 868, with capital stock amounting to \$50,930,360,

as compared with 829 new incorporations, with capital stock amounting to \$21,518,692 in 1909, showing an increase in 1910 over 1909 of 39 new incorporations and \$29,411,668 in capital stock.

Of the 629 charters recorded in Baltimore City during 1910, 316 were new enterprises, with capital stock, 141 were without capital stock, 39 were building and loan associations, 94 were miscellaneous records, 30 increased capital stock and 9 decreased capital stock, which is shown by the following brief recapitulation:

RECAPITULATION OF BALTIMORE CITY.

New Incorporations, with Capital Stock.....	316
New Incorporations, without Capital Stock.....	141
Building and Loan Associations.....	39
Miscellaneous Records.....	94
Increased Capital Stock.....	30
Decreased Capital Stock.....	9
Total Number of New Incorporations.....	629
Capitalization of New Incorporations.....	\$10,278,515
Capitalization of Building and Loan Assns.	34,483,000
	<hr/>
	\$44,761,515
Increase of Capital Stock.....	\$ 2,746,000
Decrease of Capital Stock.....	1,240,500
	<hr/>
Net Increase of Capital Stock.....	\$ 1,505,500

The new incorporations with capital stock amounting to \$100,000 and over are divided as follows: Fourteen for \$100,000 each, 1 for \$125,000, 5 for \$150,000, 6 for \$200,000, 1 for \$300,000, 1 for \$500,000, 1 for \$1,000,000 and 1 for \$1,200,000. The remainder are for amounts less than \$100,000, as shown by the following table, which is a complete record of all new incorporations for the year:

THE COUNTIES

Of the 239 new incorporations in the counties, with a total capitalization of \$6,168,845, Baltimore County leads with 51 to its credit and a total capitalization of \$3,503,500; Washington County is second in number of new incorporations, with 39 to its credit capitalized for \$397,720, and Allegany is third in number, but second in amount of capital stock, having 30 to its credit and \$768,700 in capital stock. Frederick, Anne Arundel, Harford, Dorchester, Carroll, Montgomery, Prince George's, Somerset, Garrett, Worcester, Cecil, Charles, Wicomico, Howard, Talbot, Caroline and St. Mary's come next in the order named.

There were no new incorporations in Calvert and Queen Anne's Counties during the year 1910, and Kent County failed to report.

The following recapitulation by counties gives the number of new incorporations in each, with the amount of capital stock.

RECAPITULATION BY COUNTIES.

COUNTIES	Number of Incorporations	Capital Stock
Allegany.....	30	\$768,700
